Crash Course Waking Up After The Boom:

Boom's Blues Wim Verbei, 2017-05-09 *Boom's Blues* stands as both a remarkable biography of J. Frank G. Boom (1920-1953) and a recovery of his incredible contribution to blues scholarship. Originally titled *The Blues: Satirical Songs of the North American Negro*, Wim Verbei tells how and when the Netherlands was introduced to African American blues music and describes the equally dramatic and peculiar friendship that existed between Boom and jazz critic and musicologist Will Gilbert, who worked for the Kultuurkamer during World War II and had been charged with the task of formulating the Nazi *Jazzverbod*, the decree prohibiting the public performance of jazz. *Boom's Blues* ends with the annotated and complete text of Boom's *The Blues*, providing the international world at last with an English version of the first book-length study of the blues. At the end of the 1960s, a series of thirteen blues paperbacks edited by Paul Oliver for the London publisher November Books began appearing. One manuscript landed on his desk that had been written in 1943 by a then twenty-three-year-old Amsterdammer, Frank Frans Boom. Its publication, to which Oliver gave the title *Laughing to Keep from Crying*, was announced on the back jacket of the last three Blues Paperbacks in 1971 and 1972. Yet it never was published, and the manuscript once more disappeared. In October 1996, Dutch blues expert and publicist Verbei went in search of the presumably lost manuscript and the story behind its author. It only took him a couple of months to track down the manuscript, but it took another ten years to glean the full story behind the extraordinary Frans Boom, who passed away in 1953 in Indonesia.

Wake up America Edward E. Mills, 2021-10-13 This book will severely challenge every element of the consensus explanation for the Great Recession. In fact, a book like this, although not necessarily this one, is urgently needed to counter the massive disinformation spread by the Majority Report of the Financial Crisis Inquiry Commission that Congress created in 2009 to investigate the financial crisis of 2007-2009 that led to the Great Recession. Congress handed the Commission a list of 19 directives, including the directive to examine the global imbalance of savings, international capital flows, and fiscal imbalances of various governments and monetary policy and the availability and terms of credit. The Commission chairman clearly steered the Commission toward the goal of shifting the blame for the financial crisis from government onto the backs of the private mortgage finance industry, consisting not only of banks but including mortgage bankers, insurance companies, and the mortgage giants popularly known as Fannie Mae and Freddie Mac. The Commission chairman specifically refused to consider any evidence linking the financial crisis and consequential Great Recession that struck the United States but impacted the global economy as well. This book has no agenda other than to present a complete factual history of the events, conditions, and policies that led to the Great Recession. The history will demonstrate that the seeds of the financial crisis were sown during the administration of George Washington, and the economic theories spawned during the Great Depression. The overarching thesis is that the Global Financial Crisis and the resulting Global Recession was a perfect superstorm composed of the merger of separate storm systems, notably aggressive welfare activism, the Nation's

affordable housing crusade the zigs and zags of the Federal Reserve s monetary policies and the 9 trillion trade deficit the U S accumulated between 1997 and 2007 which former Federal Reserve Chairman Ben Bernanke dubbed the Global Savings Glut and others labeled the Global Dollar Glut Men of Achievement in the Great Southwest George Ward Burton,1904
