at where we've been at the recipes our mothers and grandmothers loved and at how our own tastes have evolved. The more than 500 cherished recipes in these pages are mainstays of American home cooking: the recipes that have remained favorites year after year. For the smallest sampling: California dip, Buffalo chicken wings, vichyssoise, tuna noodle casserole, Swiss steak, frosted meat loaf, tamale pie, corn dogs, lobster rolls, classic green bean bake, perfection salad, green goddess salad, frozen fruit salad, chiffon cake, brownies, chocolate chip cookies, chocolate decadence. Beyond this collection is Jean's exploration of the diversity of our nation's cuisine and our adoption of such foreign dishes as pizza, gazpacho, lasagne, moussaka, and tarte tatin. Her painstakingly researched text includes extensive headnotes, thumbnail profiles of important people and products from Fannie Farmer to James Beard and from electric refrigerators to the microwave and a timeline of major 20th century food firsts. In recording popular recipes that might have been lost in setting them in richly detailed historical context, Jean Anderson has written her masterwork *The American Century Cookbook*, which may well be the most important new cookbook of the decade. It is certainly the book America will love.

Literature and Food Studies Amy Tigner, Allison Carruth, 2017-11-22

*Literature and Food Studies* introduces readers to a growing interdisciplinary field by examining literary genres and cultural movements as they engage with the edible world and in turn illuminate transnational histories of empire, domesticity, scientific innovation, and environmental transformation and degradation. With a focus on the Americas and Europe, *Literature and Food Studies* compares works of imaginative literature from Ovid's *Metamorphoses* and Shakespeare's *The Winter's Tale* to James Joyce's *Ulysses* and Toni Morrison's *Tar Baby* with what the authors define as vernacular literary practices which take written form as horticultural manuals, recipes, cookbooks, restaurant reviews, agricultural manifestos, dietary treatises, and culinary guides. For those new to its principal subject, *Literature and Food Studies* introduces core concepts in food studies that span anthropology, geography, history, literature, and other fields; it compares canonical literary texts with popular forms of print culture and it aims to inspire future research and teaching. Combining a cultural studies approach to foodways and food systems with textual analysis and archival research, the book offers an engaging and lucid introduction for humanities scholars and students to the rapidly expanding field of food studies.
