Blue Collar Bayou Jacques M. Henry,Carl Leon Bankston,2002-11-30 Although the French language and the traditional rural way of life are disappearing among Louisiana Cajuns identification with Cajun ethnicity is flourishing Henry and

Bankston draw on historical documents ethnographic observations and interviews and statistical sources to investigate and explain this phenomenon They argue that while Cajun ethnicity developed from and consisted of the French speaking rural poor of the region it has been transformed during the 20th century into a regional class with common interests and outlooks A substantial minority of Cajuns have risen out of the blue collar niche and into the middle class creating more complicated problems of adjustment role redefinition and the changing nature of relationships with friends and family who remain part of the working class The authors detail and describe the way the working class Cajun majority and the white collar Cajun minority draw on images and ideas from a reconstructed past to make sense of their present conditions and changes in their community This comprehensive structural analysis of Cajun ethnicity suggests a new emphasis on structural conditions in understanding ethnic phenomena and introduces the concept of an economy of ethnicity In analyzing and exploring the creation and maintenance of Cajun ethnicity Henry and Bankston also point toward a general theory of contemporary ethnic groups Why for instance have more and more people claimed to be of Native American ancestry How did the population of people calling themselves Irish soar over the course of a very brief period of time Arguing that as the cultural basis of difference subsides ethnic claims increase and that such claims are based on a number of factors including socioeconomic and regional concerns the authors contend that the same factors at play in the maintenance of the Cajun ethnicity are also at play in other ethnic communities and subcultures within the United States They conclude that in claiming an ethnic identity group members rework ideas of history and ancestry in order to apply these ideas to modern life

Language, Elites, and the State Amilcar A. Barreto,1998-02-28 For decades the U S territory of Puerto Rico and the Canadian province of Quebec have been riveted by the politics of nationalism the question of their final status and the protection of their local languages In the name of cultural defense the legislatures in San Juan and Quebec City have passed several laws focusing on protecting the vernacular Barreto explores these two cases and challenges some general

preconceived notions about nationalist movements A common premise in ethnic conflict studies is that nationalism is caused by cultural traits such as language or religion or is a result of a region's subservient economic role vis vis the country's core However Barreto contends that Puerto Rican and Quebecois elites turned to nationalism in reaction to their social marginalization and economic suppression Anglophone elites in the U S and Canada established a hegemonic order making English a requirement for social and economic ascendancy Shunned by the country's dominant group on account of their language elites in Puerto Rico and Quebec took up the banner of nationalism attempting to establish a counter hegemonic order Thus nationalism Barreto contends is an unanticipated reaction to the exclusionary attitudes and policies of one group against another This analysis is important to political scientists social scientists and researchers involved with nationalism ethnic conflict and Puerto Rican and Canadian studies
