Creating The European Community:

Creating the European Community Robert Case Mowat, 1973 **Creating European Citizens** Willem Maas, 2007-02

Exploring a key aspect of European integration this clear and thoughtful book considers the remarkable experiment with common rights and citizenship in the EU Governments around the world traditionally distinguish insiders citizens from outsiders foreigners Yet over the past half century an extensive set of supranational rights has been created in Europe that removes member governments authority to privilege their own citizens a hallmark of sovereignty The culmination of supranational rights European citizenship not only provides individuals with choices about where to live and work but also forces governments to respect those choices Explaining this innovation why states cede their sovereignty and eradicate or redefine the boundaries of the political community by including foreigners Willem Maas analyzes the development of European citizenship within the larger context of the evolution of rights Imagining more than simply a free trade market the goal of building a broader and deeper community among peoples with a destiny henceforward shared creating European citizens has informed European integration since its origins The author argues that its success or failure will not only determine the future of Europe but will also provide lessons for political integration elsewhere

The European Community Johan Galtung, 2021-05-30 This book first published in 1973 analyses the European Community in a global perspective It asks and answers two main questions what does the European Community mean to the masses of the world and what does it mean to the world community in general Most critical studies of the EC were made from an internal point of view and this book is rare in having an external perspective The author discussed the EC with diverse audiences in 16 countries and his analyses are invaluable in putting the European project in an international context

The European Community Émile Noël (OBE.), Commission of the European Communities, 1979 **European Community** John Pinder, 1991

The European Union John McCormick, Jonathan Olsen, 2013-08-06 A thoroughly revised concise and comprehensive introduction to the structure institutions and policy development of the European Union

Informal Decision Making in the European Community under the Luxembourg Compromise Philip Bajon, 2025-10-16 This book analyses the informal decision making process in the EU against the background of a gradually emerging European legal order Based on extensive multi archival research in the UK France Germany the Benelux countries and in Community institutions the book explores the resistance against majority rule under the so called Luxembourg Compromise of 1966 a European soft law that allowed Member States to invoke vital national interests and to veto legislation This gentlemen s agreement was never sanctioned or codified However as a rule of the game it had a significant impact on the operations of the EU for several decades and became an integral part of the EU s consensus approach Its underlying rationale is still alive in the present day EU Presenting a deeply revisionist account of European law and politics the book demonstrates how the Luxembourg arrangement served as a compromise between the Treaty text and political reality as a counterweight to

technocratic ideas and as a bridge between irreconcilable divides over European unification It includes case studies from 1965 2000 such as the Eurosclerosis of the 1970s British exceptionalism as an EU member the European revival of the mid 1980s and intergovernmentalism on the verge of negotiating the Maastricht Treaty Highly original in its interdisciplinary comprehensive and archivally rooted method the book interrogates the most important and controversial debates about the past present and future of the European Union

NATO, the European Union, and the Atlantic Community Stanley R. Sloan, 2005-07-28 Provides an interpretive history of the trans atlantic alliance and explores critical developments in US European relations The author considers the ongoing pattern of US unilateralism and its consequences as the trans atlantic and intra European debate over Iraq produced deep splits among the allies and eroded European trust in US leadership

The Making of EU Foreign Policy Karen E. Smith, 1998-11-11 This book argues that there has been a common European Union EU foreign policy towards six countries of Eastern Europe Bulgaria Czech Republic Hungary Poland Romania Slovakia and analyses why the EU has agreed to the policy The objective of the EU s policy is to support the transformation of Eastern Europe and thus ensure security and stability The most important instrument that the EU has used to reach this objective has been the prospect of enlargement

Economic Citizenship in the European Union Paul Teague, 2005-10-25 Paul Teague explores the macro economic productive and institutional pressures faced by Europe s social model and assesses a number of economic and political programmes aimed at resolving the crisis It also considers the role of the European Union building a social dimension to the European economy The findings suggest that the future of traditional institutions of Social Europe is under threat However they also stress that we are not on the threshold of the Americanisation of European life This study finds that the influential political forces that reject the dismantling of Europe s social model should not be preoccupied with defending inherited institutions Instead this book argues that they should encourage the construction of new forms of social solidarity compatible with the complexities of modern economic life

The European Community and Human Rights Christiane Duparc, Commission of the European Communities, 1993 Conclusion Towards the 21st century

Small States in the European Union Diana Panke, 2010 The most recent EU enlargements have considerably increased the number of small member states In the EU 27 19 countries have fewer votes in the Council of Ministers than the EU average These small states face a series of size related disadvantages in day to day EU negotiations Against this backdrop the book asks are some small states better at coping with structural disadvantages than others How active are small states in participating in day to day EU negotiations and why do some states use negotiation strategies more frequently than others Under which conditions are the different negotiation strategies effective and when can small states punch above their weight Based on more than 100 interviews with policy makers and an analysis of a unique database on the negotiation activities of EU member states this book explains how active participation is essential for the shaping success of small states and shows that small states are more influential with persuasion based rather than bargaining based strategies

Two case studies on the pesticides and the spirit drinks regulations further reveal that persuasion strategies are especially effective if the arguments match the nature of the issue at stake and resonate well with prior beliefs of addressees No other study comprehensively analyzes small states in a comparative perspective examines their activity levels in EU negotiations and outlines which conditions are needed for the effectiveness of a broad range of strategies This is an indispensable resource for students and researchers interested in how and under which conditions small states can influence policies in negotiations beyond the nation state

Poland and Germany in the European Union Elżbieta Opiłowska, Monika Sus, 2021-03-19 This book explores the political and social dynamics of the bilateral relations between Germany and Poland at the national and subnational levels taking into account the supranational dynamics across such different policy areas as trade foreign and security policy energy fiscal issues health and social policy migration and local governance By studying the impact of the three explanatory categories the historical legacy interdependence and asymmetry on the bilateral relationship the book explores the patterns of cooperation and identifies the driving forces and hindering factors of the bilateral relationship Covering the Polish German relationship since 2004 it demonstrates in a systematic way that it does not qualify as embedded bilateralism The relationship remains historically burdened and asymmetric and thus it is not resilient to crises This book will be of key interest to scholars and students of European and EU Politics German politics East Central European Politics borderlands studies and more broadly for international relations history and sociology

Building European Union Trevor C. The EU as global actor and its influence on the global gender regime Stefanie Kessler, 2009-02-16 Research Paper postgraduate from the year 2008 in the subject Politics Topic European Union grade B 1 7 University of Auckland language English abstract In the last years the European Union EU transformed the European gender regime towards gender equality thoroughly This dissertation deals with the question of the EU s external influence on transforming societies Is the external influence coherent with internal claims Trade is the EU s most important external policy area The EU is an economic giant based on the largest single market in the world Thus the EU has power in and through trade The EU makes increasingly the adaptation of normative standards a condition to access its market Does the EU integrate also standards on gender equality And does the EU transform gender regimes globally through trade What impacts does the EU have on gender regimes This

dissertation examines gender impacts in the Sustainability Impact Assessments that show possible impacts of trade agreements between the EU and its partners The analysis shows that gender is secondary to economic growth and not directed towards gender equality As a consequence the EU does not use its power through trade and the coherence of internal and external efforts is questionable *Handbook on Equal Treatment for Men and Women in the European Community* Junia Pais Macedo van Overbeek,1995 Research EU ,2008-06 **Bulletin of the European Communities** ,1993
