Creating With Clay:

Creating Lifelike Figures in Polymer Clay Katherine Dewey, 2013-05-29 Katherine Dewey's expressive and elegantly detailed sculptures enchant all who see them. With the magical medium of polymer clay and this book, you can follow in her footsteps. Thorough instructions supported by more than 400 step-by-step color photos and 200 detailed drawings cover the entire process of sculpting realistic figures from selecting clay and gathering essential tools to the basics of modeling the human figure to incorporating poses, facial expressions, ethnic and gender subtleties, costumes, and painted finishing touches. Easy-to-read maps of the figure illustrate the landmarks of the body, while scale diagrams indicate the simple shapes hidden within the human form, as well as how to combine and model those shapes. For anyone who loves fantasy, romance, nature, or sophisticated crafting, this book is a must-have.

Digital Preservation and Documentation of Global Indigenous Knowledge Systems Masenya, Tlou Maggie, 2023-08-03. Indigenous knowledge is regarded as undocumented cultural, local, traditional, and community knowledge produced and owned by local people in their specific communities. It is mainly preserved in the memories of elders and shared or passed on from generation to generation through oral communication, traditional practices, and demonstrations. This irreplaceable resource may be lost forever as a direct result of the pressures of modernization, colonization, and globalization. Concern over the loss of Indigenous knowledge has thus raised a need for the preservation and documentation of this knowledge in digital formats. Digital Preservation and Documentation of Global Indigenous Knowledge Systems determines how Indigenous knowledge can be documented and digitally preserved to benefit Indigenous knowledge owners and their communities and be accessible for future generations. The book provides the best practices, innovative strategies, theoretical and conceptual frameworks, and empirical research.
