The Creation Everett Jenkins,2011 **The Muslim Diaspora (Volume 1, 570-1500)** Everett Jenkins, Jr.,2015-05-07

This first volume covers the development of Islam in the period from the birth of Muhammad in C E 570 through 1500 during which Islam grew to dominate the area which has come to be known as the Middle East Along with their religion Muslims carried their culture their goods and their innovations to the far corners of the globe Their contributions to Western civilization such as new kinds of agriculture irrigation oranges sugarcane cotton manufactured goods satin rugs paper perfumes and technology astrolabe compass lateen sail are set out in detail Baptized into God A.A. Walker,2014-05-08

This book is an intriguing study on two controversial topics baptism in the name of Jesus Christ and the oneness of God Baptism has been a theme of contention for many centuries yet the Biblical and historical records teach us the simplicity of this topic The second area of fiery debate revolves around the identity of God and the monotheistic cry of the Scripture Being both a research oriented and scholarly publication the reader will find themselves being challenged as they are confronted with the truth from the Bible and the witness of history while reclining at the metaphorical table of scholarly disputation This work is for the hungry heart the academic mind the inquisitive lovers of the Scripture and those with questions that need to be addressed As the reader is challenged to explore the evidence with the author the testimony of scholarship and most importantly the veracity of the Word they will find themselves in a position calling them to respond to such discoveries This study will trouble stagnant waters and compel the reader to consider the unequivocal God Jesus Christ *Pan-African*

Chronology I Everett Jenkins, Jr.,2024-10-16 The 1400s were a pivotal time in the history of Africans The Songhai Empire rose to prominence and new city states arose in Hausaland Yorubaland and Benin One of the most significant developments however was European and Asian exploration of the continent and the rapid expansion of the slave trade By the end of the century African slaves could be found from India to the Indies and the foundation was laid for a peculiar institution that would last for over 400 years From the time of the first European expeditions to Africa to the end of slavery in the United States this work chronicles the most significant events in African Pan African and African American history Many of the entries e g Columbus discovery of America and the death of Toussaint L Overture are supplemented by brief historical accounts that set the event in context There are extensive see references to related happenings *Pan-African Chronology*

III Everett Jenkins, Jr.,2001-01-01 This third volume of the Pan African Chronology set covers 1914 through 1929 a time of two seminal events World War I and the Black Awakening In World War I people of African descent fought for both sides earning distinction on the battlefields of France as well as in the jungles and deserts of Africa The Black Awakening a period from 1919 through 1929 marked the dawning of global awareness of the contributions of African people to the culture of the world The book is arranged by year and events of each year are grouped by region It also has two special biographical divisions for W E B DuBois and Marcus Garvey *Pan-African Chronology II* Everett Jenkins, Jr.,2015-07-11 This

continuation volume of the Pan African Chronology set covers the most significant events in the African diaspora from the end of the American Civil War through the pre World War I years This was a time of great change for black Americans Reconstruction the founding of the NAACP the formation of the separate but equal doctrine and the migration of blacks from the rural South to Northern cities The eradication of slavery as a legalized institution was finally realized in the Americas while the struggle to end it in Asia was also taking place European colonialism in Africa was accelerated ironically coinciding with humanitarian efforts to end the slave trade on the African continent These events and many others are covered here

The Bible, Homer, and the Search for Meaning in Ancient Myths John Heath, 2019-04-29 The Bible Homer and the Search for Meaning in Ancient Myths explores and compares the most influential sets of divine myths in Western culture the Homeric pantheon and Yahweh the God of the Old Testament Heath argues that not only does the God of the Old Testament bear a striking resemblance to the Olympians but also that the Homeric system rejected by the Judeo Christian tradition offers a better model for the human condition The universe depicted by Homer and populated by his gods is one that creates a unique and powerful responsibility almost directly counter to that evoked by the Bible for humans to discover ethical norms accept death as a necessary human limit develop compassion to mitigate a tragic existence appreciate frankly both the glory and dangers of sex and embrace and respond courageously to an indifferent universe that was clearly not designed for human dominion Heath builds on recent work in biblical and classical studies to examine the contemporary value of mythical deities Judeo Christian theologians over the millennia have tried to explain away Yahweh s Olympian nature while dismissing the Homeric deities for the same reason Greek philosophers abandoned them they don t live up to preconceptions of what a deity should be In particular the Homeric gods are disappointingly plural anthropomorphic and amoral at best But Heath argues that Homer s polytheistic apparatus challenges us to live meaningfully without any help from the divine In other words to live well in Homer s tragic world an insight gleaned by Achilles the hero of the Iliad one must live as if there were no gods at all The Bible Homer and the Search for Meaning in Ancient Myths should change the conversation academics in classics biblical studies theology and philosophy have especially between disciplines about the gods of early Greek epic while reframing on a more popular level the discussion of the role of ancient myth in shaping a thoughtful life *The Lives of Animals in Words and Images* Željko Uvanović, Suzana Marjanić, 2025-06-26 This Animal Studies collection unravels the complex ways we represent non humans across cultures and media but primarily focusing on their image in literature and film From Noah s Ark to the haunting imagery in Hitchcock s The Birds this book probes the ethical and symbolic roles creatures play in our lives It examines everything from the portrayal of insects in ancient texts to the depiction of cats as villains in Disney films Each chapter challenges our perceptions inviting readers to reflect on the cultural significance of animals in today s world Examine your perspectives on anthropocentrism and anthropomorphism in documentary filmmaking confront the legal and ethical dilemmas of animals in entertainment and ponder the harsh realities of animals exploited for

human gain From ancient religious scriptures to contemporary film adaptations this meticulously curated collection of essays delves into the symbolic ethical and cultural significance of non human creatures in our still speciesist global society
