Angeline de Montbrun Laure Conan, 1967 Angéline de Montbrun Laure Conan, 2002 Tous les critiques s'entendent pour voir en Angéline de Montbrun le premier roman psychologique de la littérature québécoise Comme Jane Austen comme les Brontës ses consœurs romancières ironiques ou passionnées elle se tourne résolument dans Angéline de Montbrun vers les mandres de la vie intérieure auxquels elle subordonne les réflexions sociales et politiques pourtant abondantes Grâce à une indéniable maîtrise technique qui combine le roman par lettres et le journal intime elle trace le portrait d'une conscience tourmentée

Women and Narrative Identity Mary Jean Matthews Green, 2001 A feminist reading of the Quebec literary tradition from Laure Conan and Gabrielle Roy to contemporary figures such as France Thoret and Régine Robin

Francophone Literatures Belinda Elizabeth Jack, 1996 The canon of French literature has been the subject of much debate and now increasingly francophone

literatures are demanding more attention in student French literature courses The first study in English of francophone literatures this book introduces the diverse bodies of texts in French from the numerous French speaking areas around the world with separate sections covering Africa French Canada the Creole Islands and Europe and will provide students at both undergraduate and A level with a comprehensive introductory survey of the subject Francophone literatures emerge from rich bi and multi lingual cultures in part as colonial legacies They also challenge the monopoly of the French literary tradition This introductory survey celebrates the linguistic difference of such texts and the creative possibilities offered by deviance from an established tradition demanding new critical approaches The texts studied here cast a new light upon French literature in terms of their diverse perspectives upon writing history politics and culture their violent rewritings subversive versions and parodies sometimes forming an elaborate pastiche of celebrated France texts Guides to further reading a select bibliography and an extensive index combine to make the book an extremely readable introductory overview of a hitherto little explored area
