Angels Head:

Milton's Angels Joad Raymond, 2010-02-25 Milton's Paradise Lost the most eloquent most intellectually daring most learned and most sublime poem in the English language is a poem about angels It is told by and of angels it relies upon their conflicts communications and miscommunications They are the creatures of Milton's narrative through which he sets the Fall of humankind against a cosmic background Milton's angels are real beings and the stories he tells about them rely on his understanding of what they were and how they acted While he was unique in the sublimity of his imaginative rendering of angels he was not alone in writing about them Several early modern English poets wrote epics that explore the actions of and grounds of knowledge about angels Angels were intimately linked to theories of representation and theology could be a creative force Natural philosophers and theologians too found it interesting or necessary to explore angel doctrine Angels did not disappear in Reformation theology though centuries of Catholic traditions were stripped away Protestants used them in inventive ways adapting tradition to new doctrines and to shifting perceptions of the world Angels continued to inhabit all kinds of writing and shape the experience and understanding of the world Milton's Angels The Early Modern Imagination explores the fate of angels in Reformation Britain and shows how and why Paradise Lost is a poem about angels that is both shockingly literal and sublimely imaginative *Conversations with Angels* J. Raymond, 2011-08-09 Based on refractions of earlier beliefs modern angels at once terrible and comforting frighteningly other and reassuringly beneficent have acquired a powerful symbolic value This interdisciplinary study looks at how humans conversed with angels in medieval and early modern Europe and how they explained and represented these conversations **Lancelot Andrewes: Selected Sermons and Lectures** Peter McCullough, 2005-11-24 This is the first annotated critical edition of works of Lancelot Andrewes 1555-1626 a writer recognized by literary critics historians and theologians as one of the most important figures in Elizabethan and Jacobean England Peter McCullough a leading expert on religious writing in the early modern period presents fourteen complete sermons and lectures preached by Andrewes across the whole range of his adult career from Cambridge in the 1580s to the court of James I and VI in the 1620s Through a radical reassessment of Andrewes's life influence and surviving texts the editor presents Andrewes as his contemporaries saw heard and read him and as scholars are increasingly recognizing him one of the most subtle yet radical critics of mainstream Elizabethan Protestantism and a literary artist of the highest order The centuries old influence of William Laud's authorized edition of Andrewes 1629 is here complicated and contextualized by the full use for the first time of the whole range of Andrewes's works printed before and after his lifetime as well as manuscript sources The edition also showcases the aesthetic brilliance of Andrewes's remarkable prose and suggests new ways for scholars to carry forward the modern literary appreciation of Andrewes famously begun by T S Eliot A full introductory essay sets study of Andrewes on a new footing by placing his works in the context of his life and career surveying the history of responses to his writings and summarizing the history of the transmission of his texts The texts here

are edited to high modern critical standards The exhaustive commentary sets each selection in its historical context documents Andrewes s myriad sources glosses important and unfamiliar words and allusions and translates his frequent quotations from the ancient Biblical languages
