Angels Caress:

The Creator's Warriors Luis Herrera,2018-03-11 The Creator is a story born of imagination In my eternal journey through these lands I learned what it is to enjoy laugh suffer and cry I had joys and ventures I also saw the enjoyment and suffering of half the world moreover I have seen the suffering of many thousands and the enjoy of few looking at the sky I asked many questions but never find an answer taking my own initiative I intend to witness the beginning of the Apocalypse I intend to contribute to this event With little knowledge of religious events drag characters that marked milestones in the biblical story put them on the way to save the world where we live a world called land to which a man named Pedro wants to call paradise The man called Pedro has a second chance in his life in his impotence of facing so much abuse he tries to mediate with the creator he also asks many questions to this one who only responds so I do things nobody can reproach me non mortal dare to disobey so would his design so he did and so it will be forever because that is his law Peter does not agree you are wrong you seem to hate your subjects you make a good soul suffer and you give pleasure to the perverse soul he continues saying your believers are losing faith in you they are losing faith in the creator That seems to matter little to the creator who only strives to punish the one who dares to challenge his will The man named Pedro ignoring the creator s request launches himself towards the earth his task ridding it of evil he will not be alone a lot of Angels go with him As the creator can not avoid his decision he covers them with his grace he asks not to commit the same error of the fallen angels he asks that they teach to love their neighbor but that is not the intention of Pedro he will be more severe in his desire to make the earth a paradise

Speaking with Angels Iris Paxino,2023-05-15 If you wish to learn you may learn I go now and will come again And yet I am always with you This was the conclusion to a surprising message that psychologist Iris Paxino received from a bright angelic entity who appeared to her unannounced radiating a comforting warmth filled light The angel s words left her awestruck and deeply moved Paxino had long had the gift of knowing angels but it was immediately apparent to her that this special encounter marked a new beginning She was in no doubt that she did indeed want to learn and thus began a lively intense dialogue that offered an abundance of insights into the work of angels She discovered that in addition to our guardian angel each of us has a circle of twelve angels who accompany us throughout life and beyond death that we have double and shadow angels and that families communities and social groups have their own angels as do specific landscapes In a series of intimate and enlightening conversations Paxino relates knowledge about these and other types of spiritual beings Angels suffer in sympathy with the earth and stand by us in the dark times of human existence Despite everything they do not condemn but love us with such devotion that we can scarcely comprehend it *Encountering God'S Holy Angels* Dr. Bess Helen Haney Ministries,2013-07-22 It is my desire that as you read these pages you will have an eye opening experience in the angelic realm May His angels carry you into an angelic encounter with God and His holy angels who worship sing and praise eternally Worthy is the Lamb and greatly to be praised May his angels open the twelve gates of

heaven for you Go in and peek in because you will never be the same I want you to walk with me on gold paved street Just ask Him to forgive you and to come into your heart Repent and sin no more May His glorious light and the light of His angels fall on you and may you be blessed with peace and love May He bless and keep you may the angels surround and keep watch over you in your going in and in your going out This is my prayer for you until we meet in the heavenly city someday Ill say goodbye for now with love Dr Bess Helen Haney To My Sons Jose J. Flores, I wish you visit me they already have rockets just board the rocket and it will take you to the City of Gold The one that is in the third heaven corner with the city of UFOs There in the third heaven before the Creation God asked the angels who is worthy to open this little book and the angels cried because they could not open it So read this book of 28 chapters and we will take you to visit the city of gold in the rocket And while we are traveling the Holy Spirit will narrate what The Little Book and the Oracle of God says E mentre viaggiamo lo Spirito Santo narrer ci che dice il Piccolo Libro e l Oracolo di Dio Et comme nous voyageons le Saint Esprit dira ce que disent le petit livre et l oracle de Dieu Und w hrend wir reisen wird der Heilige Geist erz hlen was das kleine Buch und das Orakel Gottes sagen V trong khi ch ng ta ang i du lch Thn linh s thut li Cun s ch nh v Oracle ca c Gi h va n i g And you will know why Our Lady virgin Maria of Guadalupe appeared in Mexico City Voices From My Head Maryann

foremost philosopher of science explores how traditional images of angels in art and legend foretell the preoccupations of modern life Divided as between Heaven and Hell into First and Third Worlds our societies search for ways to make contact both by means of the most basic interpersonal relations and high tech communications The role of the messenger Serres argues is as important now as it was in Biblical times perhaps more and yet we lack a philosophy which can explain this role a philosophy of movement of communication Angels A Modern Myth offers such a philosophy showing how angels as message bearers are still part of our modern world our means of bringing together and understanding science law and religion and perhaps also the means of satisfying our need for reason justice and consolation Abundantly illustrated with an astounding breadth of images ranging from Renaissance paintings to film stills satellite photographs computer microchips and medical microscopy this thought provoking book addresses some of the most crucial issues of our time and will make essential reading for anyone seeking to comprehend the new phase of human development engendered by the transformation of our world by information technology
