*Netflix's Ripley* Joy McEntee, 2025-11-19 This book traces the intertextual genealogy behind Netflix's new series *Ripley* directed by Steve Zaillian and offers a critical examination of Tom Ripley's enduring appeal across different media. As the series quickly climbs Netflix's international charts, this volume provides a timely and insightful contribution to the *Ripleyverse*, exploring the character's complex moral and sexual dimensions in today's cultural context. McEntee investigates Ripley's role within the televisual antihero genre, engaging with theories from Jason Mittell's *Complex TV* and Margrethe Bruun Vaage's *The Antihero in American Television*. While Andrew Scott's portrayal of Ripley aims to generate empathy, this book contends that traditional frameworks for understanding antiheroes are insufficient. Instead, it introduces Eric Leake's notion of difficult empathy as a more appropriate model for analyzing Scott's Ripley, offering a fresh perspective on the character's moral ambiguity. This contrasts sharply with Anthony Minghella's 1999 adaptation, where Matt Damon's Ripley elicited a more straightforward emotional response. Readers will discover a nuanced discussion of how Ripley both adheres to and subverts the conventions of the antihero genre and comments self-reflexively on the process of adaptation. The book invites scholars and students of television studies, film, and literature to engage with these themes, providing a rich resource for understanding the evolving landscape of media narratives. Whether you are a scholar of media studies or a curious reader intrigued by the complexities of modern narratives, this book promises to deepen your understanding of the cultural significance of Tom Ripley's latest iteration. **Hollywood Legends** Tichi Wilkerson, Marcia Borie, 1988 **Vibe**, 2003-07

*American Photo*, 2001-01 *De-Whitening Intersectionality* Shadee Abdi, Bernadette Marie Calafell, Shinsuke Eguchi, 2020-07-24 *De-Whitening Intersectionality: Race, Intercultural Communication, and Politics* re-evaluates how the logic of color blindness as whiteness is at play in the current scope of intersectional research on race, intercultural communication, and politics. Calling for a re-centering of difference by exploring the emergence and inception of intersectionality concepts, the coeditors and contributors distinguish between the uses of intersectionality that seem inclusive versus those that actually enact inclusion by demonstrating how to re-conceptualize intersectionality in ways that explicate, elucidate, and elaborate culture-specific and text-specific nuances of knowledge for women of color, queer trans people of color, and non-western people of color who have been marked as the Others. As a feminist of color tradition, intersectionality has been appropriated through increasing popularity in the discipline of communication, undermining efforts to critique power when researchers reduce the concept to a checklist of identity markers. This book underscores that in order to play well with and illustrate a nuanced understanding of intersectionality, scholars must be attentive to its origins and implications. **Savoy**, 2003
