still have faith in economic growth and technological innovation as the means of fixing all global concerns including climate change. What is not questioned is whether solving development and sustainability problems through economic growth for the accumulation of wealth for the few has led to many of the current unequal development and environmental problems. If unfair growth and wealth accumulation have been part of the problem, how can they be part of the solution? The problem with the SDGs is that their fulfilment relies on wealth creation without the fundamental concomitant of wealth redistribution. The one common driver of change affecting both sustainability and development that has not been included in the SDGs is wealth, the central focus of this book. SDG 11, sustainable cities and communities, presents a further paradox unless the issue of wealth and its fair distribution is grasped. Cities are the places where wealth is generated but are also places where only a minority are wealthy. The wealth generated in cities leads to higher consumption of resources, higher emissions, and higher disparities and inequalities. However, any version of a sustainable future will happen in the built environment made according to current ideals like the present belief in overcoming all humanity's problems by becoming wealthier. A fundamental assumption of this book is that the first step toward a fairer habitat that can be maintained with the resources available is only possible if we stop designing cities and buildings as if everyone were wealthy or had to become wealthy. To achieve this goal, it is essential to identify and raise awareness of the impact of wealth, to question how the myths about the advantages of wealth were built, where they come from, what shape they take in the built environment, and who benefits from them.

No B.S. Wealth Attraction In The New Economy Dan S. Kennedy, 2010-06-01. The old economy is shattered and GONE FOREVER. It's never coming back as it was, and in its place, a generally tougher, more demanding marketplace is emerging. HOWEVER, when it comes to wealth, one instrumental reality is unchanged: No matter the economic conditions, booms or recessions, including the fast-emerging New Economy, there is wealth. And who better to show you how to lure, bait, attract, and become a magnet for it than Millionaire Maker Dan S. Kennedy? Kennedy covers how to experience the phenomenon of attracting more wealth in the next 12 months than in the previous 12 years. Wealth Inhibition: do you suffer from it? Why? Positive Thinking alone is worthless. Your 1 Entrepreneurial Responsibility: Is there a dirty little secret behind many wealthy entrepreneurs? The worst of all wealth-defeating habits: Are you an opportunity thinker or are you guilty of outcome thinking? Do what you love, and the money will follow. B.S. that's hazardous to your wealth.
