The text weaves together a macro view, social structural analysis of close relationships with the macro and an individualist view. The authors demonstrate the interaction of theory and methodology in family studies in Chapter 2 and blend cutting-edge research and practical applications throughout. Among the highlights of this first edition are the exceptionally thorough exploration of the topics of singlehood and cohabitation in Chapter 7 and the unique six-chapter core 8-13 that focuses on all aspects of parenthood and the challenges and crises that families face today. The authors' emphasis on family resilience and how families can be strengthened is reflected in the *Constructing Strong Families* boxes that appear throughout the text. These features encourage students to apply groundbreaking research on what makes a family strong to their own families and in the concluding chapter, *Looking Ahead: Helping Families Flourish*, which examines the factors that
