Gross,2004 *Creationism's Trojan Horse* Barbara Forrest,Paul R. Gross,2004 Aims to expose the scientific failure the religious essence and the political ambitions of intelligent design creationism highlighting its threat to public education and to the separation of church and state **The Decline of Nature** Gilbert LaFreniere,Gilbert F. LaFreniere,2008 An environmental history of ideas embedded in a compact account of Western civilization s ecological impact upon the planet particularly in Europe and its colonies **Media and Science-Religion Conflict** Thomas Aechtner,2020-01-22 This book examines why the religion science skirmishes known as the Evolution Wars have persisted into the 21st century It does so by considering the influences of mass media in relation to decision making research and the Elaboration Likelihood Model one of the most authoritative persuasion theories The book s analysis concentrates on the expression of cues or cognitive mental shortcuts in Darwin sceptic and counter creationist broadcasts A multiyear collection of media generated by the most prominent Darwin sceptic organizations is surveyed along with rival publications from supporters of evolutionary theory described as the pro evolutionists The analysed materials include works produced by Young Earth Creationist and Intelligent Design media makers New Atheist pacesetters as well as both agnostic and religious supporters of evolution These cues are shown to function as subtle but effective means of shaping public opinion including appeals to expertise claims that ideas are being censored and the tactical use of statistics and technical jargon Contending that persuasive mass media is a decisive component of science religion controversies this book will be of keen interest to scholars of Religion Science and Religion interactions as well as researchers of Media and Communication Studies more generally **Divine Grace and Emerging Creation** Thomas Jay Oord,2009-05-01 Wesleyans and Wesleyan theology have long been interested in the sciences John Wesley kept abreast of scientific developments in his own day and he engaged science in his theological construction Divine Grace and Emerging Creation offers explorations by contemporary scholars into the themes and issues pertinent to contemporary science and Wesleyan Theology In addition to groundbreaking research by leading Wesleyan theologians J rgen Moltmann contributes an essay Moltmann s work derives from his keynote address at the joint Wesleyan Theological Society and Society for Pentecostal Studies meeting on science and theology at Duke University Other contributions address key contemporary themes in theology and science including evolution ecology neurology emergence theory intelligent design scientific and theological method and biblical cosmology John Wesley s own approach to science explored by many contributors offers insights for how two of humanity s central concerns science and theology can now be understood in fruitful and complementary ways **The Politics of Evolution** David F. Prindle,2015-04-10 The controversy over teaching

evolution or creationism in American public schools offers a policy paradox Two sets of values science and democracy are in conflict when it comes to the question of what to teach in public school biology classes Prindle illuminates this tension between American public opinion which clearly prefers that creationism be taught in public school biology classes versus the ideal that science and only science be taught in those classes An elite consisting of scientists professional educators judges and business leaders by and large are determined to ignore public preferences and teach only science in science classes despite the majority opinion to the contrary So how have the political process and the Constitutional law establishment managed to thwart the people s will in this self proclaimed democracy Drawing on a vast body of work across the natural sciences social sciences and humanities Prindle explores the rhetoric of the evolution issue explores its history examines the nature of the public opinion that causes it evaluates the Constitutional jurisprudence that upholds it and explains the political dynamic that keeps it going This incisive analysis is a must read in a wide range of disciplines and for anyone who wants to understand the politics of biology

Intelligent Design Robert M. Baird, Stuart E. Rosenbaum, 2007-07-31 On December 20 2005 Federal District Court Judge John E Jones III ruled that Intelligent Design was not science but an unconstitutional intrusion of religion into the school curriculum His decision upheld contentions by parents in the Dover PA school district that school board members substituted personal religious beliefs for science The ruling came despite calls by President George W Bush for Intelligent Design to be taught as a theory alongside the theory of evolution This hotly contested issue continues to grip the nation and spark intense debate But what is Intelligent Design Can Intelligent Design stand up to the rigors of scientific method Or is it a nonscientific faith inspired interpretation of experience This collection of essays addresses such questions and includes analyses from scientists journalists philosophers and religious leaders and thinkers This volume provides a variety of perspectives in the hope that readers will be better prepared to reach their own conclusions about the issues involved Divided into five sections the first section provides analyses of Judge Jones s decision Section two includes a report on and a response to President Bush s call for Intelligent Design to be taught in schools The third section outlines the origins of the debate including excerpts from the classic works of Charles Darwin and theologian William Paley Section four analyzes the scientific validity of Intelligent Design and includes statements from key scientific associations The highly important concluding section asks whether religion and evolution are compatible This essential volume features selections from Elisabeth Bumiller Matt Cartmill Charles Darwin Daniel C Dennett Barbara Forrest Owen Gingerich Stephen Jay Gould John Paul II Philip Kitcher Ernan McMullen Kenneth R Miller Nancey Murphy William Paley Robert T Pennock Holmes Rolston III Michael Ruse Alfred Tauber Michael W Tkacz James Q Wilson and Carl Zimmer

Creationism in Europe Stefaan Blancke, Hans Henrik Hjermitsev, Peter C Kjærgaard, 2014-12-15 A history of Creationism in Europe from its reception to its rise and the response that has followed For decades the creationist movement was primarily situated in the United States Then in the 1970s American creationists found their ideas welcomed abroad first in

Australia and New Zealand then Korea India South Africa Brazil and elsewhere including Europe where creationism plays an expanding role in public debates about science policy and school curricula In this the first comprehensive history of creationism in Europe leading historians philosophers and scientists narrate the rise of and response to scientific creationism creation science intelligent design and organized antievolutionism in countries and religions throughout Europe Providing a map of creationism in Europe the authors chart the history of creationist activities and strategies Over the past forty years creationism has spread swiftly among European Catholics Protestants Jews Hindus and Muslims even as anti creationists sought to halt it Anti evolution messages gained such widespread approval in fact that in 2007 the Parliamentary Assembly of the Council of Europe passed a resolution advising member states to defend and promote scientific knowledge and firmly oppose the teaching of creationism as a scientific discipline on an equal footing with the theory of evolution Creationism in Europe offers an introduction to the cultural history of modern Europe the variety of worldviews in Europe and the interplay of science and religion in a global context It will be of interest to students and scholars in the history and philosophy of science religious studies and evolutionary theory as well as policy makers and educators concerned about the spread of creationism in our time Intelligent Design Robert B. Stewart,2007 Leading intellectuals debate and explain the controversy over Intelligent Design in this text that explores the scientific religious and philosophical facets of the debate in a balanced fair and open minded format **Creation Research Society Quarterly** Creation Research Society,2005

**American Thought and Culture in the 21st Century** Martin Halliwell,Catherine Morley,2008 This volume considers the changing patterns of American thought and culture in its transition into the early 21st century *The American Naturalist* ,2007 American Book Publishing Record ,2004 *West Virginia Law Review* ,2009 **Symposium** ,2008

**History and Philosophy of the Life Sciences** ,2007 Silenced! Bruce E. Johansen,2007-05-30 This book is about people whose beliefs and affiliations have opposed powerful interests in the present day United States This eclectic group of people and controversial issues from climate change scientists who have been censored by the Bush administration to Muslims accused of terrorism have one thing in common All of them straddle the limits of what Noam Chomsky has called permissible debate as defined by dominant political and economic institutions and individuals The central thesis is that restriction of free inquiry is harmful to our culture because it inhibits the search for knowledge Johansen presents case studies in the borderlands of free speech in a Jeffersonian cast an intellectual framework assuming that open debate even of unpopular ideas is essential to accurate perception of reality This book is about people whose ideological circumstances have found them opposing established beliefs in our times scholars advocating the Palestinian cause in a very hostile intellectual environment for example as well as climate scientists defending themselves against the de funding of their laboratories by defenders of fossil fuel interests opponents of creation science under assault for teaching what once was regarded as household variety biology a k a Darwinism Marxists in a political system dominated by neoconservatives The central thesis

that unites this diverse array of controversies is that shutting down free inquiry most notably for points of view deemed unpopular dumbs us all down by restraining the search for knowledge which demands open inquiry We have been told when going to war as in Iraq that freedom isn't free the unstated assumption being that our armed forces are fighting and dying to safeguard our civil rights at home and abroad During recent years however freedom to inquire and debate without retribution has been under assault in the United States This assault has been carried out under a distinctly Orwellian cast under Newspeak titles such as the Patriot Act parts of which might as well be described more honestly as the Restriction of Freedom of Inquiry Act The information gathered here will interest and probably anger anyone who is concerned with protecting robust free inquiry in a nation that takes seriously its freedom to speak out and to define truth through open debate **The Skeptical Inquirer**, 2008
