*China and the West to 1600* Steven Wallech,2016-02-23 A comparative history of Chinese and Western Civilization from the dawn of agriculture to the dawn of modernity in Europe China and the West to 1600 explores the factors that led to the divergent evolution of two major cultures of the ancient world and considers how the subsequent developments saw one culture cling to tradition even as the other failed to do so inadvertently setting the stage for the birth of the Modern Era An accessible and inventive comparative history suitable for all students at the college level as well as general readers Compares the history of Chinese civilization with Western civilization from the rise of agriculture to the dawn of the modern period Explores the ways in which Western failures in the Middle Ages after the Roman Empire s collapse and China s successes in the same period laid the groundwork for each culture s divergent path in the modern period Makes meaningful connections between cultures and over time through the use of themes such as agriculture philosophy religion and warfare and invasion Bridges the gap between antiquity and modernity looking at many factors of the global Middle Ages that influenced the development of the modern world Features a timeline maps endnotes and complete index

**Mediterranean Europe(s)** Matthew D'Auria,Fernanda Gallo,2022-09-26 This book investigates how ideas of and discourses about Europe have been affected by images of the Mediterranean Sea and its many worlds from the nineteenth century onwards Surprisingly modern scholars have often neglected such an influence and in fact in most histories of the idea of Europe the Mediterranean is conspicuously absent This might partly be explained by the fact that historians have often identified Europe with modernity and the Atlantic world and therefore in opposition to the classical world centred around the Mediterranean This book will challenge such views showing that a plethora of thinkers from the early nineteenth century to the present have refused to relegate the Mediterranean to the past Importance is given to the idea of a distinct meridian thought a notion first set forth by Albert Camus and now reworked by French and Italian thinkers As most chapters argue this might represent an important tool for rethinking the Mediterranean and in turn it might help us challenge received notions about European identity and rethink Europe as the locus of modernity Mediterranean Europe s Rethinking Europe from its Southern Shores will appeal to researchers and students alike interested in European studies and Mediterranean history
