**Allen J. Hubin**

## **Borderline Murder:**

Borderline Murder Alan Amos, 1947      **The Psychology of Interrogations and Confessions** Gisli H.

Gudjonsson, 2003-05-27 This volume a sequel to *The Psychology of Interrogations Confessions and Testimony* which is widely acclaimed by both scientists and practitioners brings the field completely up to date and focuses in particular on aspects of vulnerability confabulation and false confessions The is an unrivalled integration of scientific knowledge of the psychological processes and research relating to interrogation with the practical investigative and legal issues that bear upon obtaining and using in court evidence from interrogations of suspects Accessible style which will appeal to academics students and practitioners Authoritative integration of theory research practical implications and vivid case illustration Coverage of topical issues like confabulation false memory and false confessions Part of the Wiley Series in *The Psychology of Crime Policing and Law*

Penalties of Empire Christopher Mun, 2025-04-29 We must have a procedure if we are going to hang anyone that is just said Chief Justice Sir Francis Piggott in 1909 on discovering that Chinese accused of murder were being denied interpretation in Hong Kong s courts Due process no matter how costly or inconvenient was one of the penalties of empire he declared *Penalties of Empire* explores how judges juries and lawyers strove to deliver justice during the 150 years when the death penalty was in force in Hong Kong Nine main chapters focus on key capital trials in the first century of British rule Among the cases are piracies assassinations and crimes of passion and desperation These chapters describe the proceedings in court and the participants involved They also explore the debates surrounding each case and the exercise or denial of mercy by governors Two final chapters discuss the decline of the death penalty after World War II its suspension after 1966 and the controversies leading to its formal abolition in 1993 *Penalties of Empire* traces the evolution of criminal justice at its highest levels It also offers a prism for understanding some of the broader forces at work in Hong Kong s history Dr Munn is a distinguished scholar in the legal history of Hong Kong This impressive work focuses on the administration of justice in capital cases in the context of the conditions of the society at the time His account of events and people is lively and masterly His observations and insights are illuminating and perceptive This outstanding book deserves to be widely read The Honourable Andrew Li Kwok Nang First Chief Justice of the Hong Kong SAR 1997 2010 This book is an extraordinary attempt to approach European colonial culture from a fresh perspective by scrutinising the work that courts did By excavating the judicial archives Chris Munn gives us an entirely new account of how colonial justice both worked and failed to achieve its aims Timothy Brook author of *The Price of Collapse The Little Ice Age and the Fall of Ming China* In this richly detailed exploration of nine capital trials chosen from among the hundreds that took place in Hong Kong between 1844 and 1993 Chris Munn provides a stimulating exploration of British colonial rule Authoritative and engagingly written *Penalties of Empire* takes the reader into the heart of some of the most controversial episodes in Hong Kong s modern history Robert Bickers University of Bristol      Vagueness and Law Geert Keil, Ralf Poscher, 2016-12-01 Vague expressions are omnipresent

in natural language As such their use in legal texts is virtually inevitable If a law contains vague terms the question whether it applies to a particular case often lacks a clear answer One of the fundamental pillars of the rule of law is legal certainty The determinacy of the law enables people to use it as a guide and places judges in the position to decide impartially Vagueness poses a threat to these ideals In borderline cases the law seems to be indeterminate and thus incapable of serving its core rule of law value In the philosophy of language vagueness has become one of the hottest topics of the last two decades Linguists and philosophers have investigated what distinguishes soritical vagueness from other kinds of linguistic indeterminacy such as ambiguity generality open texture and family resemblance concepts There is a vast literature that discusses the logical semantic pragmatic and epistemic aspects of these phenomena Legal theory has hitherto paid little attention to the differences between the various kinds of linguistic indeterminacy that are grouped under the heading of vagueness let alone to the various theories that try to account for these phenomena Bringing together leading scholars working on the topic of vagueness in philosophy and in law this book fosters a dialogue between philosophers and legal scholars by examining how philosophers conceive vagueness in law from their theoretical perspective and how legal theorists make use of philosophical theories of vagueness The chapters of the book are organized into three parts The first part addresses the import of different theories of vagueness for the law referring to a wide range of theories from supervenientist to contextualist and semantic realist accounts in order to address the question of whether the law can learn from engaging with philosophical discussions of vagueness The second part of the book examines different vagueness phenomena The contributions in part 2 suggest that the greater awareness to different vagueness phenomena can make lawyers aware of specific issues and solutions so far overlooked The third part deals with the pragmatic aspects of vagueness in law providing answers to the question of how to deal with vagueness in law and with the professional political moral and ethical issues such vagueness gives rise to

Good Reasons for Better Arguments Jerome E. Bickenbach, Jacqueline M. Davies, 1996-09-19 This text introduces university students to the philosophical ethos of critical thinking as well as to the essential skills required to practice it The authors believe that Critical Thinking should engage students with issues of broader philosophical interest while they develop their skills in reasoning and argumentation The text is informed throughout by philosophical theory concerning argument and communication from Aristotle's recognition of the importance of evaluating argument in terms of its purpose to Habermas's developing of the concept of communicative rationality The authors' treatment of the topic is also sensitive to the importance of language and of situation in shaping arguments and to the necessity in argument of some interplay between reason and emotion Unlike many other texts in this area then Good Reasons for Better Arguments helps to explain both why argument is important and how the social role of argument plays an important part in determining what counts as a good argument If this text is distinctive in the extent to which it deals with the theory and the values of critical thinking it is also noteworthy for the thorough grounding it provides in the skills of

deductive and inductive reasoning the authors present the reader with useful tools for the interpretation evaluation and construction of arguments A particular feature is the inclusion of a wide range of exercises rich with examples that illuminate the practice of argument for the student Many of the exercises are self testing with answers provided at the back of the text others are appropriate for in class discussion and assignments Challenging yet accessible Good Reasons for Better Arguments brings a fresh perspective to an essential subject

*Crime Fiction and Film in the Southwest* Steve Glassman, Maurice J. O'Sullivan, 2001 When Joe Leaphorn and Jim Chee Tony Hillerman's oddly matched tribal police officers patrol the mesas and canyons of their Navajo reservation they join a rich tradition of Southwestern detectives In *Crime Fiction and Film in the Southwest* a group of literary critics tracks the mystery and crime novel from the Painted Desert to Death Valley and Salt Lake City In addition the book includes the first comprehensive bibliography of mysteries set in the Southwest and a chapter on Southwest film noir from Humphrey Bogart's tough hood in *The Petrified Forest* to Russell Crowe's hard nosed cop in *L.A. Confidential*

*Famous Murder Stories of Guyana* John Campbell, 1980 **The Subject is Murder** Albert J. Menendez, 1986 *Monthly Bulletin* San Francisco Public Library, 1919 **Doubleday Crime Club Compendium, 1928-1991** Ellen Nehr, 1992 North Carolina Reports North Carolina. Supreme Court, 1988 Cases argued and determined in the Supreme Court of North Carolina Who Done It? Ordean A. Hagen, 1969 **A Guide to Zimbabwean Criminal Law** G. Feltoe, 1989 **Journal of Delinquency**, 1921 *The Journal of Juvenile Research*, 1917

**The Journal of Delinquency**, 1921 The Death Penalty Alfred B. Heilbrun, 2006-09-25 Capital punishment attracts strong and opposing moral positions execution by the state under any condition is wrong versus execution as just retribution for heinous killing In this book the author rejects these moral arguments as a basis for determining the social value of the death penalty and considers the issue scientifically by determining whether capital punishment deters willful killing Using evidence from legal history the impairment abolishment of the death penalty between 1968 and 1976 and the right of states to adopt or abolish the death penalty this book examines the statistical relationship between the death penalty and deterrence The investigation considers the murder rate during periods with and without the threat of capital punishment the role of state commitment to its own capital punishment system and fairness in administering the death penalty

**Crime Fiction, 1749-1980** Allen J. Hubin, 1984 **The Penalties for Homicide** Great Britain. Committee on the Penalties for Homicide, 1972 **A Study of Selected Cases of Family Murder in South Africa** Roland Graser, 1992

Eventually, you will extremely discover a additional experience and attainment by spending more cash. yet when? realize you say yes that you require to get those every needs once having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will guide you to comprehend even more something like the globe, experience, some places, taking into account history, amusement, and a lot more?

It is your entirely own become old to con reviewing habit. in the midst of guides you could enjoy now is **Borderline Murder** below.

web sep 4 2017 dive into a world where technology business and innovation intersect from the realms of ai and data science to the cutting edge fields of embedded system

**optical character recognition github topics github** - Jun 18 2023

web feb 7 2018 optical character recognition here are 4 public repositories matching this topic language matlab pdulapalli ocr 488 star 1 code issues pull requests generate text files from input images containing character sequences image

processing optical character recognition updated on dec 29 2015 matlab khitk9738 ocr

optical character recognition github topics github - Mar 15 2023

web sep 12 2023 ocr deep learning pytorch text recognition text detection optical character recognition text detection recognition tensorflow2 document recognition updated sep 20 2023 python

**optical character recognition ocr file exchange matlab** - Jul 19 2023

web aug 8 2014 the aim of optical character recognition ocr is to classify optical patterns often contained in a digital image corresponding to alphanumeric or other characters the process of ocr involves several steps including segmentation feature extraction and classification

*optical character recognition ocr matlab codes researchgate* - May 05 2022

web jan 1 2011 pdf on jan 1 2011 ahmet murat published optical character recognition ocr matlab codes find read and cite all the research you need on researchgate

recognize text using optical character recognition ocr - Dec 12 2022

web the ocr function provides an easy way to add text recognition functionality to a wide range of applications load an image i imread businesscard png perform ocr results ocr i display one of the recognized words word results words 2 word

mathworks location of the word in i wordbbox results wordboundingboxes 2

github geekayu ocr optical character recognition using matlab - May 17 2023

web a simple optical character recognition application running ocr run the ocr start m then generate the template and start extracting the text from the image note image should only contain text and font should be similar to the generated template

*optical character recognition projects and source code* - Apr 04 2022

web the following matlab project contains the source code and matlab examples used for optical character recognition ocr the aim of optical character recognition ocr is to classify optical patterns often contained in a digital image corresponding to alphanumeric or other characters

*recognize text using optical character recognition matlab ocr* - Aug 20 2023

---

web txt ocr i returns an ocrtext object that contains optical character recognition ocr information from the input image i the object contains recognized characters words text lines the locations of recognized words and a metric indicating the confidence of each recognition result example

*optical character recognition using matlab with source code text* - Aug 08 2022

web optical character recognition using matlab with source code text extraction from image in matlab rarekind phd solutions 1 74k subscribers 401 views 2 years ago matlab show more text

**character recognition matlab simulink example mathworks** - Jul 07 2022

web trial software product updates character recognition this example illustrates how to train a neural network to perform simple character recognition defining the problem the script prprob defines a matrix x with 26 columns one for each letter of the alphabet each column has 35 values which can either be 1 or 0

*ocr recognition github topics github* - Apr 16 2023

web nov 22 2021 issues pull requests written in matlab the project aims to convert hand written or printed text into machine encoded text from a scanned document or a photo using ocr and corrects the text using ms word spell checker and later converts it into speech accuracy of 95 is achieved

**optical character recognition matlab code download free open source** - Nov 11 2022

web the following matlab project contains the source code and matlab examples used for optical character recognition the source code and files included in this project are listed in the project files section please make sure whether the listed source code meet your needs there project files
