Borders And Boundaries:

Exploring Borders and Boundaries in the Humanities Melih Karakuzu, Hasan Baktır, Banu Akçeşme, Betül Ateşci Koçak, 2021-05-26 In a post everything world we have felt more pain than happiness in building and tampering with borders The term border has been expanded to become a ploy for grim chauvinistic self flattery and ultra nationalist bigotry We have also faced notorious coverage of the border in the media worldwide and its diverse forms have been extensively deployed in cinema and literature Centering on a wide range of literary and cinematic genres the contributors to this volume explore and explain distinct theoretical and scholarly arguments to promote research on literary linguistic and media representations of the word border

Walls, Borders, Boundaries Marc Silberman, Janet Ward, Karen E. Till, 2012 How is it that walls borders boundaries and their material and symbolic architectures of division and exclusion engender their very opposite This edited volume explores the crossings permeations and constructions of cultural and political borders between peoples and territories examining how walls borders and boundaries signify both interdependence and contact within sites of conflict and separation Topics addressed range from the geopolitics of Europe s historical and contemporary city walls to conceptual reflections on the intersection of human rights and separating walls the memory politics generated in historically disputed border areas theatrical explorations of border crossings and the mapping of boundaries within migrant communities

Cross-Border Tourism in Protected Areas Marius Mayer, Wojciech Zbaraszewski, Dariusz Pieńkowski, Gabriel Gach, Johanna Gernert, 2019-02-06 This book discusses how tourism between neighboring countries like Poland and Germany is hindered despite the Schengen Treaty Taking protected areas in north eastern Germany and north western Poland as exemplary cases it analyses the phenomenon of socio economic and cultural barriers for cross border tourism It also presents the results of a representative online survey in both countries and discusses socio economic and geographical research on border areas nature tourism in protected areas national stereotypes and prejudices As one of the very few source market studies on protected area tourism it is relevant for scholars and practitioners protected area managers tourism professionals alike providing them with insights into the implications for future research and tourism practice

Borders, Boundaries and the Bible Martin O'Kane, 2002-01-01 This collection focuses on the interdisciplinary nature of current biblical studies especially the interpretation of the Bible through the arts Its aim is to illustrate how the crossing of boundaries enriches our understanding of the text itself Contributors include Robert Carroll Mary Douglas Wendy Porter Edward Kessler Larry Kreitzer John Hull and Martin O Kane The themes embrace literature Kipling music Bach and art Holbein The editor contributes an introduction and an illustrated essay on the Flight into Egypt as an icon of refuge

Physical and Symbolic Borders and Boundaries and How They Unfold in Space Basak Tanulku, Simone Pekelsma, 2024-03-05 This book critically examines how borders and boundaries physical and symbolic unfold in different geographies and spaces It aims to understand why they exist and how they are constructed deconstructed and reconstructed

The book explores why certain borders boundaries persist while others are removed and new ones are erected It does not focus on one form of border boundary or geographic location It shifts its attention to different geographies borders and boundaries It also focuses on intersections between them and how they complete each other The book provides case studies from the past and present allowing readers to connect subjects periods and geographies The chapters address classical subjects such as nation states and tackle novel questions such as ownership against access that is of urban infrastructures COVID 19 and lockdowns and the divides within digital worlds The book benefits from visual essays that complement the theoretical and empirical chapters showing the complexity of the phenomenon in a simple and effective way The book will be of interest to academics researchers and students working in the fields of urban and rural studies urban sociology cities and communities urban and regional planning urban anthropology political sciences and migration studies human geography cultural geography urban anthropology and visual arts

Borders, Boundaries, and Frames Mae Henderson, 1995 First Published in 1995 Routledge is an imprint of Taylor Francis an informa company

State Frontiers Inga Brandell, 2006-02-02 This book deals with a very topical issue in an innovative multidisciplinary approach It deals with borders that are always a hotly debated and controversial issue Do borders still define the limits of states How do communities change when a border is put between them Is the physical border more important than the conceptual boundary In recent times the question of borders in the Middle East has assumed an importance unknown since the collapse of the Ottoman empire In this fresh examination of the issue Inga Brandell draws together a variety of disciplinary approaches and takes the classic debates forward into the 21st century Casting its net wide from the Anatolian plateau to the mountains of Cyprus State Frontiers brings a number of key issues to light Brandell brings to our attention the idea of straddling populations looking at the Syrian Lebanese business community which has historically shuttled across the border between the two countries as a result of civil war in one and successive economic diktats in the other Another case study examines the lived experience of borders in Cyprus detailing not only the physical but also the mental and cultural effects of separation The usefulness of the discourse of borders is highlighted by looking at the disjunction between Turkish politicians rhetoric of border inviolability and the Turkish army's regular violation of the South Eastern border with Iraq Brandell provides rich empirical illumination of the psychological function of borders in creating and keeping out an imagined other She also explores practical dimensions of borders in the context of boundary transgressing resources such as water Brandell offers important new theoretical insights discussing the validity of the assumptions which underlie border studies In the Middle East borders are widely believed to be arbitrary and ultimately external to the organic development of societies In its multifaceted portrayal of border life State Frontiers restores the balance and contributes towards a more sophisticated understanding of these issues

Experiments in Practice Astrid Schwarz, 2015-10-06 Traditionally experimentation has been understood as an activity performed within the laboratory but in the twenty first century this view is being challenged

Schwarz uses ecological and environmental case studies to show how scientific experiments can transcend the laboratory

The Routledge Handbook of Critical Resource Geography Matthew Himley, Elizabeth Havice, Gabriela Valdivia, 2021-07-12 This Handbook provides an essential guide to the study of resources and their role in socio environmental change With original contributions from more than 60 authors with expertise in a wide range of resource types and world regions it offers a toolkit of conceptual and methodological approaches for documenting analyzing and reimagining resources and the worlds with which they are entangled The volume has an introduction and four thematic sections The introductory chapter outlines key trajectories for thinking critically with and about resources Chapters in Section I Un knowing resources offer distinct epistemological entry points and approaches for studying resources Chapters in Section II Un knowing resource systems examine the components and logics of the capitalist systems through which resources are made circulated consumed and disposed of while chapters in Section III Doing critical resource geography Methods advocacy and teaching focus on the practices of critical resource scholarship exploring the opportunities and challenges of carrying out engaged forms of research and pedagogy Chapters in Section IV Resource making world making use case studies to illustrate how things are made into resources and how these processes of resource making transform socio environmental life This vibrant and diverse critical resource scholarship provides an indispensable reference point for researchers students and practitioners interested in understanding how resources matter to the world and to the systems conflicts and debates that make and remake it

Critical Border Studies Noel Parker, Nick Vaughan-Williams, 2016-03-23 This edited collection formalises Critical Border Studies CBS as a distinctive approach within the interdisciplinary border studies literature Although CBS represents a heterogeneous assemblage of thought the hallmark of the approach is a basic dissatisfaction with the Line in the Sand metaphor as an unexamined starting point for the study of borders A headline feature of each contribution gathered here is a concerted effort to decentre the border By decentring we mean an effort to problematise the border not as taken for granted entity but precisely as a site of investigation On this view the border is not something that straightforwardly presents itself in an unmediated way It is never simply present nor fully established nor obviously accessible Rather it is manifold and in a constant state of becoming Empirically contributors examine the changing nature of the border in a range of cases including the Arctic Circle German Dutch borderlands the India Pakistan region and the Mediterranean Sea Theoretically chapters draw on a range of critical thinkers in support of a new paradigm for border research The volume will be of particular interest to border studies scholars in anthropology human geography international relations and political science Critical Border Studies was published as a special issue of *Geopolitics*

Why Borders Matter Frank Furedi, 2020-05-13 Western society has become estranged from the borders and social boundaries that have for centuries given meaning to human experience This book argues that the controversy surrounding mass migration and physical borders runs in parallel and is closely connected to the debates surrounding the symbolic boundaries people need to

guide on the issues of everyday life Numerous commentators claim that borders have become irrelevant in the age of mass migration and globalisation Some go so far as to argue for No Borders And it is not merely the boundaries that divide nations that are under attack The traditional boundaries that separate adults from children or men from women or humans from animals or citizens and non citizens or the private from the public sphere are often condemned as arbitrary unnatural and even unjust Paradoxically the attempt to alter or abolish conventional boundaries coexists with the imperative of constructing new ones No Border campaigners call for safe spaces Opponents of cultural appropriation demand the policing of language and advocates of identity politics are busy building boundaries to keep out would be encroachers on their identity Furedi argues that the key driver of the confusion surrounding borders and boundaries is the difficulty that society has in endowing experience with meaning The most striking symptom of this trend is the cultural devaluation of the act of judgment which has led to a loss of clarity about the moral boundaries in everyday life The infantilisation of adults that runs in tandem with the adultification of children offers a striking example of the consequence of non judgmentalism Written in a clear and direct style this book will appeal to students and scholars in cultural sociology sociology of knowledge philosophy political theory and cultural studies

Nation Shapes Fred M. Shelley,2013-04-23 This book provides a concise and comprehensive description of all of the borders of every country in the contemporary world including physical boundaries their historical evolution and border related conflicts with other countries Nation Shapes The Story behind the World s Borders examines the importance of country boundaries the disconnects between these borders related factors such as cultures religions and economies and how conflicts over boundaries between neighboring countries are articulated The book is organized geographically and by region of the world the Americas Africa Europe the Middle East South and Southeast Asia East and Southeast Asia and Australia and Oceania It provides comprehensive descriptions of the boundaries of each country in the world the historical evolution of these boundaries and current and potential future boundary disputes and conflicts While the work contains an entry for each country the emphasis is on countries of major importance in the modern global economy

Boundaries and Borders in the Post-Yugoslav Space Nenad Stefanov,Srdjan Radović,2021-10-25 The disintegration of Yugoslavia accompanied by the

emergence of new borders is paradigmatically highlighting the relevance of borders in processes of societal change crisis and conflict This is even more the case if we consider the violent practices that evolved out of populist discourse of ethnically homogenous bounded space in this process that happened in the wars in Yugoslavia in the 1990ies Exploring the boundaries of Yugoslavia is not just relevant in the context of Balkan area studies but the sketched phenomena acquire much wider importance and can be helpful in order to better understand the dynamics of bordering societal space that are so characteristic for our present situation

Migration, Identity, and Belonging Margaret Franz, Kumarini Silva, 2020-02-17 This volume responds to the question How do you know when you belong to a country In other words when is the nation state a homeland The boundaries and borders defining who belongs and who does not proliferate in the age of globalization although they may not coincide with national jurisdictions Contributors to this collection engage with how these boundaries are made and sustained examining how belonging is mediated by material relations of power capital and circuits of communication technology on the one side and representations of identity nation and homeland on the other The authors diverse methodologies ranging from archival research oral histories literary criticism and ethnography attend to these contradictions by studying how the practices of migration and identification procured and produced through global exchanges of bodies and goods that cross borders foreclose those borders to re produce and re imagine the homeland and its boundaries

The Changing Meaning of Territorial Borders Martin Payrhuber, 2014-04-08 Seminar paper from the year 2014 in the subject Geography Earth Science Miscellaneous grade 1.0 University of Salzburg Department of Geography and Geology course Seminar Geographies of Inequalities language English abstract Amin points out that it is odd that the mainstream view of cities and regions is still one of territorial entities although recent developments have been transforming cities and regions into sites immersed in global networks of organization and routinely implicated in distant connections and influences These developments have become known as globalization and were they reason why spatial configurations e.g territorial borders are no longer necessarily territorial or scalar because the social economic political and cultural inside and outside are constituted through the topologies of actor networks which are becoming increasingly dynamic and varied in spatial constitution Amin This paper intends to outline the circumstances and consequences of the development identified by Amin in terms of the creation of new forms of inequality and disparity The first part deals with definitions in the realm of borders and boundaries the second part treats the historical current and future meanings of borders and the third part draws the connection between borders and inequality
