Borges And Philosophy Selfm Time And Metaphysics

William H. Bossart

Borges And Philosophy Selfm Time And Metaphysics:

Borges and Philosophy William H. Bossart, 2003 Jorge Luis Borges is acknowledged as one of the great Spanish writers of the twentieth century. On the broader literary scene, he is recognized as a modern master. His fascination with philosophy, especially metaphysics, sets him apart from his contemporaries. Borges appreciated and formulated rigorous philosophical arguments but also possessed the unique ability to present the most abstract ideas imaginatively in metaphors and symbols. Borges wandered among the great masters, seeking a firm purchase that he could not find, and therefore expressed a nostalgia for metaphysics as he lost himself in his labyrinths. *Borges and Philosophy* traces Borges' philosophical concerns in his tales, essays, and poems and argues that despite his apparent skepticism in philosophical matters, a careful reading of Borges' texts reveals a coherent philosophical path that underlies his work. *The Cosmos and the Creative Imagination*

Anna-Teresa Tymieniecka, Patricia Trutty-Cooill, 2016-02-03 The essays in this book respond to Anna Teresa Tymieniecka's recent call to explore the relationship between the evolution of the universe and the process of self-individuation in the ontopoietic unfolding of life. The essays approach the sensory manifold in a number of ways. They show that theories of modern science become a strategy for the phenomenological study of works of art, and vice versa. Works of phenomenology and of the arts examine how individual spontaneity connects with the designs of the logos of the whole and of the particulars, while the designs rest not on some human concept but on life itself. Life's pliable matrices allow us to consider the expansiveness of contemporary science and to help create a contemporary phenomenological sense of cosmos. **Blind**

Narrations and Artistic Subjectivities Aravinda Bhat, 2023-07-11 *Blind Narrations and Artistic Subjectivities* Corporeal Refractions makes an important contribution to the field of blindness studies by highlighting the centrality of blindness in literary compositions. It presents a critical interpretation of selected prose writings by three blind authors: Argentine poet, short story writer, and essayist Jorge Luis Borges; Australian religious educator and diarist John M. Hull; and the American memoirist and poet Stephen Kuusisto. The volume discusses themes like theorising the corporeality of writing, aesthetic turn to the experience of blindness, altered sensation, and self-understanding, lived experience of growing blind, self-knowledge through interaction with the world, artistic subjectivity, narrative choices, and the implied author. This book will be useful for scholars and researchers of blindness studies, disability studies, arts and aesthetics, literature, cultural studies, and philosophy.

Metaphysics Alyssa Ney, 2014-08-13 *Metaphysics: An Introduction* combines comprehensive coverage of the core elements of metaphysics with contemporary and lively debates within the subject. It provides a rigorous and yet accessible overview of a rich array of topics connecting the abstract nature of metaphysics with the real world. Topics covered include: Basic logic for metaphysics, An introduction to ontology, Abstract objects, Material objects, Critiques of metaphysics, Free will, Time, Modality, Persistence, Causation, Social ontology, the metaphysics of race. This outstanding book not only equips the reader with a thorough knowledge of the fundamentals of metaphysics but provides a valuable guide to contemporary

metaphysics and metaphysicians Additional features such as exercises annotated further reading a glossary and a companion website www.routledge.com/cw/ney will help students find their way around this subject and assist teachers in the classroom
