Bornless Keeper:

The Bornless Keeper P. B. Yuill,1974 *Routledge Handbook of Football Studies* John Hughson, Kevin Moore, Ramón Spaaij, Joseph Maguire, 2016-10-04 Football is unquestionably the world's most popular and influential sport. There is no corner of the globe in which the game is not played or followed. More countries are affiliated to FIFA football's governing body than to the United Nations. The sport has therefore become an important component of our social, cultural, political, and economic life. The *Routledge Handbook of Football Studies* is a landmark work of reference going further than any other book in considering the historical and contemporary significance of football around the world. Written by a team of leading sport scholars, the book covers a broad range of disciplines from history, sociology, politics, and business to philosophy, law, and media studies. The central section of the book examines key themes and issues in football studies such as the World Cup and international competition, governance and ownership, fandom and celebrity. The concluding section offers in-depth surveys of the culture and organisation of football in each of the regional confederations from UEFA to CONCACAF. This book will be fascinating reading for any serious football fan and an essential resource for advanced students or scholars undertaking research in football or sport studies and any practitioner or policy maker working in football.

Football in Fiction Lee McGowan, 2019-09-26 Football in Fiction represents the most comprehensive historical mapping and analysis of novels related to association football (soccer). It offers a theoretically informed field guide, a scholarly cartography of football fiction's uncertain and until now only partially explored terrain. Combining an extensive search for texts with up-to-date academic research, journals, surveys, catalogues, and reviews, the book demonstrates a topographic perspective of the field, one that captures and establishes its breadth, depth, and distinctive identity. The book uses and adapts two distinct reading models of abstraction in conjunction with closer textual analyses. Together they assist in realising a set of demonstrable conventions, outline a taxonomy of fictive types, establish the genre's current state of play, and advance the football novel as a form with its own literary history and traditions. This book is a valuable resource for those studying and researching in the areas of the social and cultural aspects of football, sports fiction, sports writing, creative writing, and literary and genre studies. Furthermore, related industry professionals will find this a fascinating read, particularly football writers, fans of the sport, and those interested in sports history and cultural phenomena.
