During the late 1770s Boston's townspeople were struggling to rebuild a community devastated by British occupation the ensuing siege by the Continental Army and the Revolutionary war years After the British attacked Lexington and Concord on April 19 1775 Boston's population plummeted from 15 000 civilians to less than 3 000 property was destroyed and plundered and the economy was on the verge of collapse How the once thriving colonial seaport and its demoralized inhabitants recovered in the wake of such demographic physical and economic ruin is the subject of this compelling and well researched work Drawing on extensive primary sources including ward tax assessors Taking Books church records census records birth and marriage records newspaper accounts and town directories Jacqueline Barbara Carr brings to life Boston's remarkable rebirth as a flourishing cosmopolitan city at the dawn of the nineteenth century She examines this watershed period in the city's social and cultural history from the perspective of the town's ordinary men and women both white and African American re-creating the determined community of laborers artisans tradesmen mechanics and seamen who demonstrated an incredible perseverance in reshaping their shattered town and lives Filled with fascinating and dramatic stories of hardship conflict continuity and change the engaging narrative describes how Boston rebounded in less than twenty five years through the efforts of inhabitants who survived the ordeal of the siege those who fled British occupation and returned after the war and the influx of citizens from many different places seeking new opportunities in the growing city Carr explores the complex forces that drove Boston's transformation taking into consideration such topics as the built environment and the town's neighborhoods the impact of town government on people's lives the day to day trials of restoring and managing the community the effect of the postwar economy on work and daily life and forms of leisure and theater entertainment

School Committee, 1896 **Documents of the City of Boston** Boston (Mass.). City Council, 1894 Conversing by Signs Robert Blair St. George, 2000-11-09

The people of colonial New England lived in a densely metaphoric landscape a world where familiars invaded bodies without warning witches passed with ease through locked doors and houses blew down in gusts of angry providential wind Meaning Robert St George argues was layered often indirect and inextricably intertwined with memory apprehension and imagination By exploring the linkages between such cultural expressions as seventeenth century farmsteads witchcraft narratives eighteenth century crowd

violence and popular portraits of New England Federalists St George demonstrates that in early New England things mattered as much as words in the shaping of metaphor These forms of cultural representation architecture and gravestones metaphysical poetry and sermons popular religion and labor politics are connected through what St George calls a poetics of implication Words objects and actions referentially interdependent demonstrate the continued resilience and power of seventeenth century popular culture throughout the eighteenth century Illuminating their interconnectedness St George calls into question the actual impact of the so called Enlightenment suggesting just how long a shadow the colonial climate of fear and inner instability cast over the warm glow of the early national period
