

Boulder Dam

Andrew J. Dunar, Dennis McBride

Boulder Dam:

Boulder City Paul W. Papa, 2017-06-12 In the depths of the Great Depression the United States undertook a task so monumental it demanded nearly five thousand people to complete The Hoover Dam stands as a modern marvel a testament to America's ingenuity However few know the story of the town that built the dam To house the workers Secretary of Interior Ray L. Wilbur envisioned a model of city planning giving birth to Boulder City Wilbur intended for the city to be temporary to disappear once the dam was complete but it didn't work out that way Local author Paul W. Papa offers a unique look at a town that may have been forged by a dam but took on a life of its own The Boulder Canyon Project William Joe Simonds, 1995 *Around Boulder City* Cheryl Ferrence, 2008-09-01 The original planners of Boulder City Nevada did not expect that the community of workers and engineers would outlast the construction of the great Hoover Dam The subsequent years challenged this assumption however as Boulder City continued to grow and thrive even after the dam was completed and the waters of the Colorado River were harnessed As more families took road trips to visit the dam and other southwestern attractions Boulder City became a tourism hub Shops restaurants and hotels including the famous Boulder Dam Hotel were built and even more visitors flocked to the nearby Lake Mead National Recreation Area after its establishment in 1964 Elton M. Garrett aptly described the city in the masthead of his newspaper the Boulder Dam Challenge in 1936 Boulder City Carries On With Spirit With Which Boulder Dam Challenged Rio Colorado **The Hoover Dam** Lesley A. DuTemple, 2003-01-01 Describes the history of the Hoover Dam why and how it was built and how it works *Hoover Dam* Craig A. Doherty, Katherine M. Doherty, 1995 A history of the Hoover Dam with an emphasis on basic architecture engineering and mechanical procedures involved in construction **Building Hoover Dam** Andrew J. Dunar, Dennis McBride, 2016-06-01 Andrew J. Dunar and Dennis McBride skillfully interweave eyewitness accounts of the building of Hoover Dam These stories create the richest existing portrait of the building of Hoover Dam and its tremendous effect on the lives of those involved in its creation the gritty sometimes grisly realities of living in cardboard boxes and tents during several of the hottest Southern Nevada summers on record the fearsome carbon monoxide deaths of tunnel builders who it was claimed had died of pneumonia the uproarious life of nearby Las Vegas versus the tightly controlled existence of the workers in the built overnight confines of Boulder City and of course the astounding accomplishment of building the Dam itself and completing the task not only early but under budget *Boulder Dam*, 1946 **Boulder City** Tiane Marie, 2021 During the midst of the Great Depression Boulder City came to life due to the Boulder Dam project which offered people a path of hope This wonderful town's heritage does not end at its buildings or sites for they are just the icing to a richer culture Standing in present time with images of their past will allow those in the community or newcomers a fresh view on the preservation efforts and care that Boulder City represents **The Story of Hoover Dam** United States. Bureau of Reclamation, 1961 **So Boulder Dam was Built** George Albert Pettitt, 1935 Design and construction: Bull.1. General features. Bull.2.

Boulder Dam. Bull.5. Penstocks and outlet pipes. Bull.6. Imperial Dam and desilting works United States. Bureau of Reclamation,1938 *Boulder Canyon Project* ,1941 Around Boulder City Cheryl Ferrence,2008 The original planners of Boulder City Nevada did not expect that the community of workers and engineers would outlast the construction of the great Hoover Dam The subsequent years challenged this assumption however as Boulder City continued to grow and thrive even after the dam was completed and the waters of the Colorado River were harnessed As more families took road trips to visit the dam and other southwestern attractions Boulder City became a tourism hub Shops restaurants and hotels including the famous Boulder Dam Hotel were built and even more visitors flocked to the nearby Lake Mead National Recreation Area after its establishment in 1964 Elton M Garrett aptly described the city in the masthead of his newspaper the Boulder Dam Challenge in 1936 Boulder City Carries On With Spirit With Which Boulder Dam Challenged Rio Colorado **The Wild River and the Great Dam** Simon Boughton,2024-03-12 In this detailed and informative work Boughton chronicles the construction of the Hoover Dam via compellingly comprehensive text Publishers Weekly starred review This well written narrative is bound to become the authority on this modern American marvel Booklist starred review Discover the complicated history behind the construction of Hoover Dam one of the country s most recognizable and far reaching landmarks and its lasting political and environmental effects on the Colorado River and the American West At the time of its completion in 1936 Hoover Dam was the biggest dam in the world and the largest feat of architecture and engineering in the country a statement of national ambition and technical achievement It turned the wild Colorado River into a tame and securely managed water source transforming millions of acres of desert into farmland while also providing water and power to the fast growing population of the Southwest The concrete monolith quickly became a symbol of American ingenuity however its history is laden with contradiction It provided work for thousands but it was a dangerous project that exploited desperate workers during the Depression It helped secure the settlement and economies of the Southwest but at the expense of Indigenous peoples and the environment and it created a dependency on the Colorado River s water which is under threat from overuse and climate change Weaving together elements of engineering geography and political and socioeconomic history and drawing heavily from unpublished oral histories taken from dam workers and their families Simon Boughton s thoughtful and compelling debut featuring historical photographs throughout follows the construction and impact of Hoover Dam and how its promise of abundance ultimately created a river in crisis today *Hoover Dam* Joseph E. Stevens,1990-09-01 Traces the construction of Hoover Dam describes the technical and political challenges and discusses the economic impact of the dam **A Review of the Boulder Dam Project** O. F. Ravell,1930 Construction of Boulder Dam Boulder Dam Service Bureau,1934 *The Hoover Dam Documents* United States. Department of the Interior,1948 Hoover Dam Power and Water Contracts and Related Data United States. Bureau of Reclamation,1950 The Boulder Dam, All-American Canal Project ,1924
