interpretive and theoretical research built on either primary or secondary data. The approaches suggested are not exhaustive and can be extended upon by the researchers. In addition, the book will contribute towards the UN's sustainable development goals. In support of UN's efforts towards a more digital economy, this book aims to debate and discuss the history, genesis, future opportunities, and challenges of transitioning to Society 5.0 and provides a holistic perspective on a variety of topics, special topics which contribute towards the optimal attainment of the SDGs, particularly in terms of social dimensions. Finally, this book provides a platform for researchers, academics, and professionals to the transition and technological enablers of industrial revolutions through empirical or exploratory studies that use a variety of innovative approaches. The target audience of the book includes researchers and scholars who will find in its comprehensive knowledge about industry 4.0, industry 5.0, society 5.0, and its contribution to economic growth and sustainable development goals (SDGs). Furthermore, the book's secondary target audience are teachers, managers, strategists, professionals, governments, and policymakers.
