Mythology David Adams Leeming,1998-05-28 What makes something mythic What do mythic events and narratives have to do with us In Mythology David Leeming offers an unusual and effective approach to the subject of mythology by stressing universal themes through myths of many cultures This anthology collects a wide array of narrative texts from the Bible to English literature to interpretations by Joseph Campbell C G Jung and others which illustrate how myths serve whole societies in our universal search for meaning Leeming illustrates the various stages or rites of passage of the mythic universal hero from birth to childhood through trial and quest death descent rebirth and ascension The arrangement of texts by themes such as Childhood Initiation and Divine Signs The Descent to the Underworld and Resurrection and Rebirth strip mythic characters of their many national and cultural masks to reveal their archetypal aspects Real figures including Jesus and Mohammed are also included underlining the theory that myths are real and can be applied to real life This edition is updated to include additional heroine myths as well as Navajo Indonesian Indian Chinese and African tales **Sacred**
