*Acquiring, Adapting and Developing Technologies* Kwan S. Kim, Fumio Maki, Ryoshin Minami, Joung-hae Seo, 1995-02-12  
Economic progress requires technological development which in turn depends on a country's social capacity to acquire, assimilate and develop new technologies. Focusing on the evolution of Japan's economy from the Meiji Restoration to the present day, this volume provides an authoritative account firmly grounded in theoretical and empirical analysis of the country's attempts to generate the necessary social capacity for technological innovation and absorption. Successive chapters address the specific experiences of a number of key Japanese industries during this process. Each industrial case study is written by an acknowledged expert in the field and presents material of significant interest to specialists in economic development in a form that is also accessible to the nonspecialist. The book concludes with a summary of useful lessons variously applicable to countries at all the different stages of industrialization. Innovative Computing and Communications Aboul Ella Hassanien, Sameer Anand, Ajay Jaiswal, Prabhat Kumar, 2026-03-06 This book includes high quality research papers presented at the Eighth International Conference on Innovative Computing and Communication ICICC 2025 which is held at the Shaheed Sukhdev College of Business Studies University of Delhi Delhi India on 14-15 February 2025. Introducing the innovative works of scientists, professors, research scholars, students and industrial experts in the field of computing and communication, the book promotes the transformation of fundamental research into institutional and industrialized research and the conversion of applied exploration into real time applications.
