

Designing Library Buildings For Activity

Sandra Feinberg, James R. Keller, AIA

Designing Library Buildings For Activity:

Designing Library Buildings for Activity James McConnell Orr,1972 *Designing Library Buildings for Activity [by] J. M. Orr* James McConnell Orr,1972 **Designing Library Buildings for Activity** James McConnell Orr,1972 **Designing Library Space for Children** Ingrid Bon,Andrew Cranfield,Karen Latimer,2011-12-23 In recent years the library community has seen a renewed interest in library architecture and design This is due to the change of focus from content and collection development to how libraries engage with their users in a digital age This means that librarians architects politicians and patrons must develop new visions concepts and ideas for the design and building of libraries This book brings together a number of articles based on presentations from the IFLA World Congress 2009 historical view of the development of children s libraries over the last century a look at how children use new media libraries of the future innovative design projects for children s libraries from around the world current theme historical view and new projects Planning Public Library Buildings Michael Dewe,2006 Planning a new or refurbished public library means considering not only facilities for collections services staff and users but examining also the local context reviewing the library image and developing relationships with other community facilities and agencies This book examines the entire gamut of challenges confronting the planning and development of contemporary public libraries their mission their roles and key issues such as lifelong learning social inclusion community and cultural needs regeneration and funding The helpful presentation and readable style guides the librarian through the preliminary information gathering and decision making process that ensures a successful library building for all concerned Using practical case studies plans and photographs the author tackles the critical issues of siting size plans and design concepts and provides a helpful guide to weighing up the alternatives of refurbished converted and new buildings security safety and sustainability key characteristics of successful buildings identity decor and signage and interior layout and facilities The text draws together a vast resource of real library examples from all over the world which provide best practice models and lessons to learn For funding authorities librarians and architects of public libraries this is a highly informative book that will help to ensure wise decision making and prevent costly mistakes The Design of Library Areas and Buildings Ina J. Weis,1981 *Better by Design* Ayub Khan,2009 Libraries today are faced with rapidly shifting populations of users with differing needs who require a range of new communications links that are transforming our concept of the library space This developing role has created a set of new and complex challenges for those delivering library services There is no such thing as the perfect library building However a well designed building will enable a project both to gain local acceptance more easily and to ease the process of securing planning permission It also needs to be cost effective to run support the organization s objectives well offer an improved service to the user and make an impact on the community This much needed book takes as its starting point the fact that few architects know very much about libraries and fewer librarians know about architectural planning and designing It steers a clear path for library managers through the language

and processes that they need to understand as members of a team overseeing the planning of a new library building project major refurbishment or remodelling of an existing library Key topics include twenty first century libraries developing a business case project management the design project team selecting an architect partnership and community engagement the design brief design quality space planning and access occupancy and post occupancy evaluation building libraries for the future Appendices offer top tips and checklists together with a glossary of common terms used within the construction environment to help further de mystify the design process for librarians Readership This practical and accessible book is an invaluable guide not only for new entrants to the library profession but also for experienced practitioners who are approaching for the first time the important task of creating a new library or major refurbishment of existing facilities It will also be of great relevance to architects unfamiliar with library building requirements

Creating the High-Functioning Library Space Marta Mestrovic Deyrup, 2016-11-14 This book provides practical information and insights to library administrators and building plan team members at academic and public libraries who are considering or starting a library expansion or reconfiguration of existing space Building a new library or expanding or renovating an existing building brings up a host of questions and concerns not the least of which involves the future of the library This book addresses those issues in light of an overarching positive vision of libraries and their evolving purposes and roles in the 21st century This guide identifies and addresses all of the steps in the building process including preparing the request for proposal RFP selecting the right architect for the job developing a financial contingency plan and managing stakeholders expectations The book presents both the perspectives and experience of library administrators and management personnel as well as the insights of accomplished library architects and designers It provides thorough practical and current guidance in a process that library administrators often find daunting and risk immersive Reading this book is like sitting down with a knowledgeable impartial consultant before beginning a major renovation project a tremendous asset for library administrators as well as architectural firms

Checklist of Library Building Design Considerations William W. Sannwald, 2009-01-12 Guides librarians and other members of a building design team through the stages of the design process The checklist format provides a clear concise way of itemizing the issues helping your construction project run as smoothly as possible

Designing Space for Children and Teens in Libraries and Public Places Sandra Feinberg, James R. Keller, AIA, 2010-06-18 Providing tips suggestions and guidelines on the critical issues that surround designing spaces for children and teens this how to book will help you create a space that they will never want to leave This must have guide includes How to select an architect or design professional The importance of including YA librarians in the design and implementation Information on how children and teens view and use space 20 color photos of example spaces Whether your space is large or small in a library or public place this resource will give you creative and practical ideas for using the space to its full potential

Library Space Planning and Design Alexander H. Cohen, 2025-03-19 Library Space Planning and Design discusses library planning methods to improve

academic libraries learning commons undergraduate and graduate studies special collections and archives Often these projects required difficult challenges For example how to integrate student success centers or create new learning commons into a library The book shows how a library plan can be both sustainable and attractive to the users and how to integrate library functions furniture and equipment to enhance the learning environment Case studies from the author's interactions with library staff stakeholders and community leadership in the planning process are also included for additional clarity Takes a multidisciplinary approach to library services and space planning Includes case studies to act as unique learning opportunities and offers a customized methodology to support libraries of every kind Covers comprehensive planning methods that will help improve libraries

Engaging Design Emy Nelson Decker, Seth M. Porter, 2018-10-12 This book demonstrates how aesthetics design elements and visual literacy can be implemented in the library to enhance spaces programs services instruction and outreach so that your library will appeal to all users Libraries have come to accept that they must rethink how they appeal to users and harnessing the power of design can be a powerful means for addressing the changing needs of the community Decker and Porter introduce engaging design an umbrella term that incorporates multiple design frameworks with a focus on a three prong approach aesthetics design thinking and service design These frameworks can be used to guide design choices that will aid in teaching and engaging current and potential library users In the course of a lively and interesting narrative Engaging Design introduces basic concepts of aesthetics and good design and explores examples of its successful uses in the academic public and special library It provides simple steps for implementing subtle but powerful techniques to improve instruction human computer interaction e learning public services spaces wayfinding signage and all manner of library programs events and services In addition the authors recommend easy to implement best practices that will help librarians to enhance library goers experience Library administrators will also look to this book for assistance in best addressing the needs of the modern library user

Planning and Design of Library Buildings Godfrey Thompson, 1977 Library Buildings: Design and Fulfilment Library Association. London and Home Counties Branch, 1967

Library Design for the 21st Century Diane Koen, Traci Engel Lesneski, 2018-12-03 Library design in the 21st century has one common theme collaboration is at the heart of innovation Designing modern libraries is a complex process involving many stakeholders and participants Libraries of all types work with an almost limitless range of constituent groups for input buy in and successful implementation Securing support for new library buildings and renovations of libraries engages many people library clients community members faculty funding agencies donors governing authorities librarians architects interior designers and planners Telling the right story and getting to the end game demand carefully crafted approaches wide ranging skills a unified vision and productive teamwork The IFLA Library Buildings and Equipment Section has selected the best papers presented by award winning architects and international thought leaders from the academic and public library sector at our recent satellite conferences and seminars Collaborative Strategies for Successful Library Design
