*Designing Dress Patterns* H. N. Lifelong designer and patternmaker Suzy Furrer has distilled her 35 years of fashion pattern experience into this definitive resource for expert pattern making instruction. The book includes 11 chapters, each meticulously explaining a fundamental element of the pattern making process. Each element is fully explored with diagrams and illustrations, making it ideal for visual learners. Furrer begins with an introduction to pattern making, explaining what is required for building a proper patternmaking tool kit and terminology used throughout the book, before guiding the budding pattern maker through the 11 instructional chapters. QR codes provide additional video instruction.      *Pattern Designing and Draping* Woman's Institute of Domestic Arts and Sciences, 1928

Seligman, 1996 Containing 2,729 entries, Kevin L. Seligman's bibliography concentrates on books, manuals, journals, and catalogs covering a wide range of sartorial approaches over nearly five hundred years. After a historical overview, Seligman approaches his subject chronologically, listing items by century through 1799, then by decade. In this section, he deals with works on flat patterning, draping, grading, and tailoring techniques, as well as on such related topics as accessories, armor, civil costumes, clerical costumes, dressmakers' systems, fur, gloves, leather, military uniforms, and undergarments. Seligman then devotes a section to those American and English journals published for the professional tailor and dressmaker. Here, too, he includes the related areas of fur and undergarments. A section devoted to journal articles features selected articles from costume- and noncostume-related professional journals and periodicals. The author breaks these articles down into three categories: American, English, and other. Seligman then devotes separate sections to other related areas, providing alphabetical listings of books and professional journals for costume and dance, dolls, folk, and national dress, footwear, millinery, and wigmaking, and hair. A section devoted to commercial pattern companies, periodicals, and catalogs is followed by an appendix covering pattern companies, publishers, and publications. In addition to full

bibliographic notation Seligman provides a library call number and library location if that information is available The majority of the listings are annotated Each listing is coded for identification and cross referencing An author index a title index a subject index and a chronological index will guide readers to the material they want Seligman s historical review of the development of publications on the sartorial arts professional journals and the commercial paper pattern industry puts the bibliographical material into context An appendix provides a cross reference guide for research on American and English pattern companies publishers and publications Given the size and scope of the bibliography there is no other reference work even remotely like it
