academic agendas worldwide These changing circumstances raise far reaching questions What does the new emerging world order mean for established models of postcolonial theory Is postcolonialism as a field of study being overtaken by models of globalization and transnationalism What implications do the new configurations in the South have for postcolonial theory This volume drawn from a major literary conference at Delhi University provides a set of perspectives on these questions With a majority of contributions by scholars from the South these research articles have a dual focus e they revisit older debates on postcolonial theory while suggesting new perspectives and directions
