Medea's Long Shadow in Postcolonial Contexts Ana Filipa Prata,Rodrigo Verano,2024-06-10 This interdisciplinary volume explores the ancient Greek myth of Medea and its global analogues found in other mythic and folk tales of deadly exiled women such as those of La Malinche and La Llorona examining the connections between these figures and their depictions from antiquity to modernity The book considers the figure of the foreign woman her exile fratricide and infanticide in its ancient Greek form and in global postcolonial receptions in a range of media including drama film novels and the visual arts The chapters illuminate the contradictions of considering the classical Medea as a central reference point for analysis of other female figures from peripheral territories while simultaneously acknowledging the insights that such comparisons can yield Emphasizing the ways in which Medea s seditious nature enables the establishment of an extensive and heterogeneous intertextual network with other mythic characters who represent a similarly disruptive role in their specific local historical and cultural contexts the book argues for a comparative analysis that is equally attentive to myths and folk tales from all regions These essays by scholars of classics comparative and world literatures and postcolonial studies represent a plurality of perspectives from different academic contexts in Africa Latin America North America and Europe and examine how different cultures have depicted women foreigners crime and abjection The foundations of Greek myth and subsequently of the classical tradition itself are interrogated from a postcolonial perspective In tracing the portrayals of Medea and other mythic women through the overlapping features of different female characters and plots and intertwining local cultural and literary materials with broader debates this volume challenges Eurocentric narratives of power and cultural domination and works to decentralize the discussion of Medea from the exclusive domain of classical studies **Medea s Long Shadow in Postcolonial Contexts** will be of interest to students and scholars working on Greek tragedy and its reception as well as to those studying postcolonial and global approaches to literature culture and gender studies **Portraits of Women in**

Women in Greek Tragedy Synnøve Des Bouvrie,1990 This work springs from a feminist inquiry into the role of women in Ancient Greece The author confronts the paradox that while women were nearly invisible in public life they played a very prominent part on the tragic stage The book offers a thorough examination of the tragic drama and defines this medium in an

anthropological sense as a symbolic phenomenon concluding that the phenomenon presents the social order and its basic institutions The special interest of this study lies in its theoretical orientation Drawing extensively on anthropological literature on symbolism as well as on Aristotle s Poetics the author offers a model for analysis Her starting point is the emotional or tragic workings of tragic drama involving an inversion of the symbolic or world order The method is then applied to eight dramas staging prominent women providing insights which will prove useful to the study of Greek tragedy in general
