For instance segregation and the subsequent civil rights movement profoundly affected churches in the South as they sought to mesh the tenets of their faith with the prevailing culture. Editors Walter H Conser and Rodger M Payne and the book's contributors place their work firmly in the trend of modern studies of southern religion that analyze cultural changes to gain a better understanding of religion's place in southern culture now and in the future. *Southern Crossroads Perspectives on Religion and Culture* takes a broad interdisciplinary approach that explores the intersection of religion and various aspects of southern life. The volume is organized into three sections such as Religious Aspects of Southern Culture that deal with a variety of topics including food art literature violence ritual shrines music and interactions among religious groups. The authors survey many combinations of religion and culture with discussions ranging from the effect of Elvis Presley's music on southern spirituality to yard shrines in Miami to the archaeological record of African American slave religion. The book explores the experiences of immigrant religious groups in the South also dealing with the reactions of native southerners to the groups arriving in the region. The authors discuss the emergence of religious and cultural acceptance as well as some of the apparent resistance to this development as they explore the experiences of Buddhist Americans in the South and Jewish foodways. *Southern Crossroads* also looks at distinct markers of religious identity and the role they play in gender politics ritual and violence. The authors address issues such as the role of women in Southern Baptist churches and the religious overtones of lynching with its themes of blood sacrifice and atonement. *Southern Crossroads* offers valuable insights into how southern religion is studied and how people and congregations evolve and adapt in an age of constant cultural change.

[A Guide to Non-Jazz Improvisation: Fiddle Edition](#) Dick Weissman, Dan Fox, 2010-12-29 The non jazz improvisation series is a concept that germinated in Dick Weissman's mind while he was attending music school. He wrote a 15 piece arrangement of the old square dance tune Cripple Creek and wanted the trombone to take a solo as part of the arrangement. When the trombonist kept playing a bebop solo that was totally unsuitable for the chart Dick realized that in addition to the many musicians who do not improvise there are even jazz musicians who don't know how to improvise outside the limits of their own stylistic backgrounds. The non jazz improvisation series mostly includes new original tunes that are intended to show how to improvise in many musical styles including Blues Country American folk Latin American World music including South American Eastern European and Asian Odd meters playing in a variety of time signatures New Age Classical Folk Rock. In short the books are an encyclopedia of virtually every musical style excluding jazz.
