Cities, Classes, and the Social Order Anthony Lee, 2017-04-10 *Cities Classes and the Social Order* brings together nine conceptual and theoretical essays by the anthropologist Anthony Leeds 1925 1989 whose pioneering work in the anthropology of complex societies was built on formative personal and research experiences in both urban and rural settings in the United States Brazil Venezuela and Portugal Leeds brought to his anthropology a simultaneous concern for science and humanism and for explanation and interpretation He constructed a nuanced and intricate vision of the connections among ecology technology history evolution structure process power culture social organization and human creativity The essays in this book draw on his approach to demarcate the role of cities in human history the use and abuse of class analysis the bases of power in complex societies and an agenda for ethnographic and social historical research in the contemporary world In addition to major but little known writings and an important essay on Marx here published for the first time in English a selection of Leeds's ethnographically and politically inspired poems are included as are several of his professionally exhibited photographs In addition introductory essays by R Timothy Sieber and Roger Sanjek chart the course of Leeds's career and the development of his theoretical viewpoint

Includes the Society s Verhandlungen 1870 1902 [A Neighborhood Divided](#) Jane Balin,2018-10-18 When a nursing facility for AIDS patients is planned for a city neighborhood residents might be expected to respond Not in my backyard But as Jane Balin recounts in [A Neighborhood Divided](#) when that community is known for its racial and ethnic diversity and liberal attitudes public reaction becomes less predictable and in many ways more important to comprehend An ethnographer who spent two years talking with inhabitants of a progressive neighborhood facing this prospect Jane Balin demonstrates that the controversy divided residents in surprising ways She discovered that those most strongly opposed to the facility lived furthest away that families with young children were evenly represented in the two camps and that African Americans followed a Jewish community leader in opposing the home while dismissing their own minister s support of it By viewing each side sympathetically and allowing participants to express their true feelings about AIDS the author invites readers to recognize their own anxieties over this sensitive issue Balin s insightful work stresses the importance of uncovering the ideologies and fears of middle class Americans in order to understand the range of responses that AIDS has provoked in our society Its ethnographic approach expands the parameters of NIMBY research offering a clearer picture of the multi faceted anxieties that drive responses to AIDS at both the local and national levels **Lady Friends** Karen L. Ito,2018-08-06 Many indigenous Hawaiians who have moved to the islands cities languish at the bottom of the socioeconomic scale and are thought to have lost their cultural roots Initially apolitical urban Hawaiians were often skeptical of activists who sought to revitalize traditional ways yet as Karen L Ito shows Hawaiian women in particular continue to maintain and express crucial aspects of their cultural heritage in their lifestyle and interactions with others Ito conducted intensive fieldwork with six Honolulu families all of which shared the distinguishing characteristics of Hawaii s matrifocal society In her close examination of the friendships and family relations among the women in these households she focuses on the significance of a traditional manner of speech known as talk story which they use when conversing together She describes how her subjects employ metaphoric language to address issues concerning responsibility retribution understandings of self and personhood and methods for conflict resolution For these lady friends Ito finds the emotional quality and quantity of their social relationships help define personal identity while their common concepts of morality bind them together By applying ethnopsychological strategies to the exploration of culture Ito demonstrates cultural continuity at a level where most observers would not expect to find it **Lady Friends** brings a new dimension to Hawaiian research *Books in Print* ,1994 **Whitaker's Books in Print** ,1998 **City & Society** ,2000 **Subject Guide to Books in Print** ,1997 [Bibliographie Internationale D'anthropologie Sociale Et Culturelle](#) ,1994 *Latin American Research Review* ,1994 An interdisciplinary journal that publishes original research and surveys of current research on Latin America and the Caribbean [Forthcoming Books](#)
