Citizenship, Participation and Democracy L. Taylor, 1998-03-01 A comparison of the process of democratization in Chile and Argentina Utilising models of citizenship the book examines the impact of constitutional change institutional development and participation in both political parties and social movements from the perspective of the citizen It finds that citizen participation once dominated by the welfare model has been enhanced by the individualism associated with neo liberalism in relation to local social issues but that elite relationships dominate political activity in the formal political arena

Citizenship, Participation and Democracy Lucy Taylor, 1998 *Governance after Neoliberalism in Latin America* J. Grugel, 2009-06-22 Two decades of neoliberalism in Latin America have left legacies of uneven growth inequity and lackluster democracy This book offers an original and grounded discussion of what governance after neoliberalism means in Latin America and examines how states are pursuing more independent development strategies and models of democracy

Democratization Jean Grugel, Matthew Louis Bishop, 2013-12-04 The second edition of this popular and authoritative text provides a truly global assessment of democratization in theory and practice in the contemporary world It has been systematically revised and updated throughout to cover recent developments from the impact of 9 11 and EU enlargement to the war in Iraq

Narratives and Imaginings of Citizenship in Latin America Cristina Rojas, Judy Metzler, 2016-01-08 This book looks at how citizenship has been imagined and transformed in Latin America through the twentieth and early twenty first centuries from different disciplinary perspectives including anthropology history urban planning geography and political studies It looks beyond citizenship as a formal legal status to explore how ideas about citizenship have shaped political and historical landscapes in different ways through the region It shows how conceptions of citizenship are intertwined with understandings of natural spaces and environments how indigenous politics are de colonizing western liberal conceptions of citizenship and how citizenship is being transformed through local level politics and projects for development In addition to showcasing some of the novel emerging forms of citizenship in the region the book also traces the ways in which historical narratives of citizenship and national belonging persist within present day politics Collectively the chapters show that citizenship remains an important entry point for understanding politics projects of reform and struggles for transformation in Latin America This book was published as a special issue of *Citizenship Studies*

Democracy without Borders Jean Grugel, 2002-01-04 This book carves out a new area of democratisation studies by analysing the transnational dimension and the role of non state actors across three different geographical regions Chapters utilise empirical data from Europe Africa and Latin America

Post-Stabilization Politics in Latin America Carol Wise, Riordan Roett, 2003-07-28 Over the last twenty years Latin America has seen a definitive movement toward civilian rule Significant trade fiscal and monetary reforms have accompanied this shift exposing previously state led economies to the forces of the market Despite persistent economic and political hardships the combination of civilian regimes and market based strategies has proved to be

remarkably resilient and still dominates the region This book focuses on the effects of market reforms on domestic politics in Latin America While considering civilian rule as a constant the book examines and compares domestic political responses in six countries that embraced similar packages of reforms in the 1980s Argentina Brazil Chile Mexico Peru and Venezuela The contributors focus on how ambitious measures such as liberalization privatization and deregulation yielded mixed results in these countries and in doing so they identify three main patterns of political economic adjustment In Argentina and Chile the implementation of market reforms has gone hand in hand with increasingly competitive politics In Brazil and Mexico market reforms helped to catalyze transitions from entrenched authoritarian rule Finally in Peru and Venezuela traditional political systems have collapsed and civilian rule has been repeatedly challenged The contributors include Carol Wise University of Southern California Karen L Remmer Duke University Carol Graham Brookings Institution Stefano Pettinato United Nations Development Programme Consuelo Cruz Tufts University Juan E Corradi New York University Delia M Boylan Chicago Public Radio Riordan Roett Johns Hopkins University Mart n Tanaka Institute for Peruvian Studies Lima and Kenneth M Roberts University of New Mexico

Hapi, Hispanic American Periodicals Index 1999 ,2001-06 *Burying the Past* Nigel Biggar,2003-05-22 No one can deny how September 11 2001 has altered our understandings of Peace and Justice and Civil Conflict Those have become words with startling new life in our vocabularies Yet making peace and doing justice must remain challenges that are among the highest callings of humanity especially in a terror heightened world Nigel Biggar Christian ethicist and editor of this now more than ever must read Choice volume newly expanded and updated addresses head on the concept of a redemptive burying of the past urging that the events of that infamous date be approached as a transnational model of conflict and suggesting wisely and calmly that justice can be even the better understood if we should undertake the very important task of locating the sources of hostility valid or not toward the West Burying the Past asks these important questions How do newly democratic nations put to rest the conflicts of the past Is granting forgiveness a politically viable choice for those in power Should justice be restorative or retributive Beginning with a conceptual approach to justice and forgiveness and moving to an examination of reconciliation on the political and on the psychological level the collection examines the quality of peace as it has been forged in the civil conflicts in Rwanda South Africa Chile Guatemala and Northern Ireland There are times in history when making peace and doing justice seem almost impossible in the face of horrendous events Those responses are understandably human But it is in times just like these when humanity can and must rise to its possibilities and to its higher purposes in order to continue considering itself just and humane

practice of nation building in historical perspective Focusing on both historical and contemporary examples the contributors explore a number of important themes that relate to successful and unsuccessful nation building efforts from South Vietnam in the 1950s and 1960s to East Timor Afghanistan and Iraq in the twenty first century From Nation Building to State Building was previously published as a special issue of Third World Quarterly and will be of interest to students and scholars of comparative politics and peace studies

Desired States Lessie Jo Frazier,2020-06-12 Desired States challenges the notion that in some cultures sex and sexuality have become privatized and located in individual subjectivity rather than in public political practices and institutions Instead the book contends that desire is a central aspect of political culture Based on fieldwork and archival research Frazier explores the gendered and sexualized dynamics of political culture in Chile an imperialist context asking how people connect with and become mobilized in political projects in some cases or in others become disaffected or are excluded to varying degrees The book situates the state in a rich and changing context of transnational and localized movements imperialist interests geo political conflicts and market forces to explore the broader struggles of desiring subjects especially in those dimensions of life that are explicitly sexual and amorous free love movements marriage the sixties sexual revolution in Cold War contexts prostitution policies ideas about men s gratification the charisma of leaders and sexual domestic violence against women

From Pinochet to the 'Third Way' Marcus Taylor,2006-06-20 A bold insightful analysis of Chilean political economy from Pinochet to the present Marcus Taylor is breaking new ground in bringing the story of Chilean neoliberalism into contemporary debates on globalisation and its political futures RONALDO MUNCK Dublin City University author of Contemporary Latin America 2002 Detailed incisive carefully constructed lean yet sweeping this book is a supreme dissection of Chile s socially engineered contemporary dystopia JAMES M CYPHER Universidad Aut noma de Zacatecas Mexico author of Processes of Economic Development 2004 This is the first book to provide comprehensive analysis of three decades of neoliberal economic labour and social policies in Chile from the Pinochet dictatorship until today Chile is often described as a model of neoliberal development policy Marcus Taylor questions this description Examining the contradictions of neoliberal reform from a political economy perspective he demonstrates how neoliberalism has created a society that is deeply ridden with inequalities in all areas of life Taylor presents an overview of the implementation and consequences of the reforms of the Pinochet era He shows how the tensions that arose from this social inequality led to the emergence of a Third Way neoliberalism in the post dictatorship period Taylor

argues that this new development paradigm has failed to achieve the goals it set for itself This is a result of the inability of Third Way neoliberalism to significantly transform social relationships and institutions The nature of this failure is of significant consequence for the direction of popular movements for social change in Latin America during a time of renewed social and political upheaval The book will be of interest to anyone studying the problems of neoliberal reform and Third Way projects across the developing world
