City In History:

The City in History Lewis Mumford, 1961 Covers the city's development from ancient times to the modern age

THE CITY IN HISTORY LEWIS MUMFORD, 1961

The City Joel Kotkin, 2006-10-10 If humankind can be said to have a single greatest creation it would be those places that represent the most eloquent expression of our species's ingenuity, beliefs, and ideals. The city. In this authoritative and engagingly written account, the acclaimed urbanist and bestselling author examines the evolution of urban life over the millennia and in doing so attempts to answer the age-old question: What makes a city great? Despite their infinite variety, all cities essentially serve three purposes: spiritual, political, and economic. Kotkin follows the progression of the city from the early religious centers of Mesopotamia, the Indus Valley, and China to the imperial centers of the Classical era, through the rise of the Islamic city and the European commercial capitals, ending with today's post-industrial, suburban metropolis. Despite widespread optimistic claims that cities are back in style, Kotkin warns that whatever their form, cities can thrive only if they remain sacred, safe, and busy, and this is true for both the increasingly urbanized developing world and the often self-possessed global cities of the West and East Asia. Looking at cities in the twenty-first century, Kotkin discusses the effects of developments such as shifting demographics and emerging technologies. He also considers the effects of terrorism, how the religious and cultural struggles of the present pose the greatest challenge to the urban future. Truly global in scope, *The City* is a timely narrative that will place Kotkin in the company of Lewis Mumford, Jane Jacobs, and other preeminent urban scholars.

The City in History Lewis Mumford, 1987 The classic study of the city: its origins, its transformations, and its prospects. Winner of the National Book Award.

History of the City of Rome in the Middle Ages Ferdinand Gregorovius, 1902

The Great Cities in History John Julius Norwich, 2009 A work of history but also about art and architecture, trade and commerce, travel and exploration, economics and politics, this is above all a book about people and how, over the millennia, they have managed to live closely together. From the origins of urbanization in Mesopotamia to the global metropolises of today, great cities have marked the development of humankind. Babylon and Nineveh, Athens and Rome, Istanbul and Venice, Timbuktu and Samarkand, their very names are redolent both of history and romance. *The Great Cities in History* tells their story from early Uruk and Thebes to Jerusalem and Alexandria. Then the fabulous cities of the first millennium: Damascus and Baghdad in the days of the Caliphates; Teotihuacan and Maya Tikal in Central America; and Chang'an, capital of Tang Dynasty China. The medieval world saw the rise of powerful cities: Palermo and Paris in Europe; Benin in Africa; and Angkor of the Khmer. In the early modern world, we journey to Islamic Isfahan and Agra and Prague and Amsterdam in their heyday, before arriving at the phenomenon of the contemporary mega-city: London and New York, Tokyo and Barcelona, Los Angeles and São Paulo. A galaxy of more than fifty distinguished authors, including Jan Morris, Colin Thubron, Simon Schama, Orlando Figes, Felipe Fernández Armesto, Misha Glenny, Adam Zamoyski, and A. N. Wilson, evoke the character of each place and explain the reasons for its success, seeing what each city would have been like during
