Land, 2007 *The 20th-Century American City* Jon C. Teaford, 2016-09-11 An updated edition of the essential text from a respected urban historian Annals of Iowa Throughout the twentieth century the city was deemed a problematic space one that Americans urgently needed to improve Although cities from New York to Los Angeles served as grand monuments to wealth and enterprise they also reflected the social and economic fragmentation of the nation Race ethnicity and class splintered the metropolis both literally and figuratively thwarting efforts to create a harmonious whole The urban landscape revealed what was right and wrong with both the country and its citizens way of life In this thoroughly revised edition of his highly acclaimed book Jon C Teaford updates the story of urban America by expanding his discussion to cover the end of the twentieth century and the first years of the next millennium A new chapter on urban revival initiatives at the close of the

century focuses on the fight over suburban sprawl as well as the mixed success of reimagining historic urban cores as hip new residential and cultural hubs The book also explores the effects of the late century immigration boom from Latin America and Asia which has complicated the metropolitan ethnic portrait Drawing on wide ranging primary and secondary sources Teaford describes the complex social political economic and physical development of US urban areas over the course of the long twentieth century Touching on aging central cities technoburbs and the ongoing conflict between inner city poverty and urban boosterism The Twentieth Century American City offers a broad accessible overview of America s persistent struggle for a better city

Seeking a City with Foundations David W. Smith,2019-03-31 More than half the people in the world live in cities including a growing number of megacities with populations exceeding ten million people This trend means that an understanding of urbanization must be an urgent priority for Christian theology and mission across the globe This updated edition of *Seeking a City with Foundations* with an additional chapter explores Christian responses to the city ranging from rejecting the urban as evil to embracing it as being central to God s redemptive purposes Drawing from a wide range of disciplines including history social science urban planning and the history of art readers are given a detailed text which confronts the challenges that contemporary urbanization presents to world Christianity Looking at urbanism as a theme throughout Scripture culminating with the great vision of the New Jerusalem David Smith explains that God s own future is revealed as urban highlighting the need to identify modern day idols as we share the gospel in cities and acknowledge the impact of global economic forces The book also explores the causes of what has been called the divided city and traces the urban theme through the Bible to present an alternative vision of the urban future a future in which the injustices in ever growing slums and a crisis of meaning among the privileged might be overcome through the power of the reconciling message of the cross This timely book proposes a way forward for urban mission highlighting that transformation of our cities must be the focal point of Christian mission and hope

The Art of City Making Charles Landry,2012-05-16 City making is an art not a formula The skills required to re enchant the city are far wider than the conventional ones like architecture engineering and land use planning There is no simplistic ten point plan but strong principles can help send good city making on its way The vision for 21st century cities must be to be the most imaginative cities for the world rather than in the world This one change of word from in to for gives city making an ethical foundation and value base It helps cities become places of solidarity where the relations between the individual the group outsiders to the city and the planet are in better alignment Following the widespread success of *The Creative City* this new book aided by international case studies explains how to reassess urban potential so that cities can strengthen their identity and adapt to the changing global terms of trade and mass migration It explores the deeper fault lines paradoxes and strategic dilemmas that make creating the good city so difficult
