The Civil Society Reader Virginia Hodgkinson, Michael W. Foley, 2003 A civil society anthology for experts and students alike

Explaining Civil Society Development Lester M. Salamon, S. Wojciech Sokolowski, Megan A. Haddock, 2017-09-15 How historically rooted power dynamics have shaped the evolution of civil society globally The civil society sector made up of millions of nonprofit organizations associations charitable institutions and the volunteers and resources they mobilize has long been the invisible subcontinent on the landscape of contemporary society For the past twenty years however scholars under the umbrella of the Johns Hopkins Comparative Nonprofit Sector Project have worked with statisticians to assemble the first comprehensive empirical picture of the size structure financing and role of this increasingly important part of modern life What accounts for the enormous cross national variations in the size and contours of the civil society sector around the world Drawing on the project's data Lester M Salamon S Wojciech Sokolowski Megan A Haddock and their colleagues raise serious questions about the ability of the field's currently dominant preference and sentiment theories to account for these variations in civil society development Instead using statistical and comparative historical materials the authors posit a novel social origins theory that roots the variations in civil society strength and composition in the relative power of different social groupings and institutions during the transition to modernity Drawing on the work of Barrington Moore Dietrich Rueschemeyer and others Explaining Civil Society Development provides insight into the nonprofit sector's ability to thrive and perform its distinctive roles Combining solid data and analytical clarity this pioneering volume offers a critically needed lens for viewing the evolution of civil society and the nonprofit sector throughout the world

Civil Society & Development Jude Howell, Jenny Pearce, 2001 Setting out to explore critically the way civil society has entered development thinking policy and practice as a paradigmatic concept of the 21st century Howell development studies U of Sussex and Pearce Latin American politics U of Bradford trace the historical path leading to the encounter between the ideas of development and civil society in the late 1980s and how donors have translated these into development policy and programs They find that there are competing normative visions which have deep roots in Western European political thought about the role of civil society in relation to the state and market both among donors and within the societies where donors are operating This leads to donors playing a major role in shaping the character of service provision They also argue that their study exposes the hitherto unexplored power of the market as opposed to solely the state to distort donor programs

Book News Inc Socialization to Civil Society Peter Robert Sawyer, 2004-11-11 2005 CHOICE Outstanding Academic Title While many political theorists argue that the problems and failures of American democracy are rooted in the decline of civil society few examine how American institutions socialize citizens to participate in the voluntary associations that comprise civil society Peter Robert Sawyer offers a life history approach to explore citizen involvement within one community in upstate New York Sawyer's informants model enlightened self interest and participate actively in their community's voluntary

associations Their life histories revealed in rich narrative tell us how they think about political life and how various agents of socialization family peers school church community media workplace and voluntary associations themselves influence their commitment The results of this study provide some interesting revelations about how to construct government corporate education and family institutions to encourage civic participation and to maintain the overall health of civil society

Exploring Civil Society Marlies Glasius, David Lewis, Hakan Seckinelgin, 2004-08-02 This volume explores how the idea of civil society has been translated in different cultural contexts and examines its impact on politics worldwide Comparing and contrasting civil society in Latin America and Eastern Europe Western Europe and the United States Africa and South Asia and the Middle East the contributors show that there are multiple interpretations of the concept that depend more on the particular political configuration in different parts of the world than on cultural predilections They also demonstrate that the power of civil society depends less on abstract definitions and more on the extent to which it is grounded in the context of actual experiences from around the world This book includes some of the biggest names in the area such as Mary Kaldor Ronnie Lipschutz and Helmut Anheier

The Idea of Civil Society Adam B. Seligman, 1995 As the countries of East Central Europe struggle to create liberal democracy and the United States and other Western nations attempt to rediscover their own tarnished civil institutions Adam Seligman identifies the neglect of the idea of civil society as a central concern common to both cultures today Two centuries after its origins in the Enlightenment the idea of civil society is being revived to provide an answer to the question of how individuals can pursue their own interests while preserving the greater good of society and similarly how society can advance the interests of the individuals who comprise it However as Seligman shows the erosion of the very moral beliefs and philosophical assumptions upon which the idea of civil society was founded makes its revival much more difficult than is generally recognized As the countries of East Central Europe struggle to create liberal democracy and the United States and other Western nations attempt to rediscover their own tarnished civil institutions Adam Seligman identifies the neglect of the idea of civil society as a central concern common to both cultures today Two centuries after its origins in the Enlightenment the idea of civil society is being revived to provide an answer to the question of how individuals can pursue their own interests while preserving the greater good of society and similarly how society can advance the interests of the individuals who comprise it However as Seligman shows the erosion of the very moral beliefs and philosophical assumptions upon which the idea of civil society was founded makes its revival much more difficult than is generally recognized
