Civilization World:

The Human Civilization Valentin Matcas, 2016-04-20 Were there advanced civilizations on Earth older than what it is currently believed and accepted Because we keep noticing their traces everywhere while authorities deny their presence Are there other civilizations out there among planets and stars Because we keep seeing their people around here pursuing their obscure interests with authorities ignoring everything Are there nonhuman civilizations on Earth in parallel with the human civilization Because they interact from the shadow of the underground with the human civilization while again authorities deny systematically their presence And when authorities are constrained in any way to give an answer they state vaguely that it is a matter of human survival And how can humans defend themselves of anyone and anything as they are held in ignorance and denial Is there life after death Because countless of people had died and came back to tell their story and it is always consistent This implies the existence of higher extraordinary civilizations in parallel with the human civilization from above These higher civilizations could be possible since their niches of life and existence are accurate and already present within other realities Science and academia ignore this topic entirely ridiculing all seekers of higher truth and forcing them in this manner to stop their research What can there be more important to know in this world than the meaning of life itself the meaning of this entire human civilization along with the meaning of the lives and existence of all humans here in this world and in all higher worlds Why postponing disclosure if it is imperative for people s wider existence Who profits and who loses through this entire coverup Who exactly controls the current human authority Why is humanity kept ignorant in what it concerns the most important subject of all life everywhere and life eternally intelligent and civilized life Because if there are other civilizations on Earth and elsewhere human or not if there are other realities up there besides this one populated and civilized then people s ignorance renders them vulnerable when they die and have to go elsewhere In this manner once you ignore the kind of realities that may be out there you might be tricked to go and live in treacherous dubious unholy worlds claiming that they are in fact the holly lands promised to you by your own religion And so you disappear Because it is stated in religious records to be careful not to follow false deities Yet how can you know anything in this domain if you are kept ignorant the entire time and probably lied to misled and many times tempted with irrelevant material compensations throughout life This book helps you understand civilizations from a rigorous comprehensive perspective including the meaning interests agreements and intentions that civilizations have in the wider world why individuals form civilizations as an end product of their cumulative lifetime efforts and furthermore what meanings these civilizations have in the wider world

Globalization and Civilizations Mehdi Mozaffari, 2002 Globalization and Civilizations challenges established assumptions about the nature of civilizations and the supposed inevitability of the conflict between the Islamic and Western worlds Uniquely this edited book critically interrogates the concept of civilization by asking whether it is still valid in the globalized world economy of the twenty first century The first half of the book provides an historical and theoretical context

to understand the idea of civilization in political science and demonstrates how the various social economic political and cultural processes of globalization have radically altered perceptions of civilization The second half of the book looks particularly at non Western examples of the interaction between globalization and civilization and includes case studies on the Arab world Islam China India and Europe

Civilization's Quotations ,2002 These 8000 clever and insightful sayings organized by theme will enrich the prose of writers public speakers and anyone seeking to lead or persuade It also provides a wealth of inspirational affirmations to guide us in our lives Chinese proverbs Roman maxims and the wisdom of writers from William Penn to Kahlil Gibran cover themes from humility and patience to courage will and action The topics are arranged in a sequence that begins with birth and progresses through the seasons of the Ideal Life When possible each quotation flows into the next one so that the whole section reads almost like a speech given by one person In other sections one quotation plays off another creating a lively discussion amongst the authors
