The Hand-book of Household Science Edward Livingston Youmans, 1859 **The Quote Verifier** Ralph Keyes, 2007-04-01 Our language is full of hundreds of quotations that are often cited but seldom confirmed Ralph Keyes's *The Quote Verifier* considers not only classic misquotes such as Nice guys finish last and Play it again Sam but more surprising ones such as Ain't I a woman and Golf is a good walk spoiled as well as the origins of popular sayings such as The opera ain't over till the fat lady sings No one washes a rented car and Make my day Keyes's in depth research routinely confounds widespread assumptions about who said what where and when Organized in easy to access dictionary form *The Quote Verifier* also contains special sections highlighting commonly misquoted people and genres such as Yogi Berra and Oscar Wilde famous last words and misremembered movie lines An invaluable resource for not just those with a professional need to quote accurately but anyone at all who is interested in the roots of words and phrases *The Quote Verifier* is not only a fascinating piece of literary sleuthing but also a great read

The Representation of Parisian Speech in the Cinema of the 1930s Michaël Abecassis, 2005 This study is based on an analysis of videos and transcripts of five films *Fric frac* *Circonstances atténuantes* *Le Jour se lève* *La Règle du jeu* and *Hôtel du Nord* These films are examples of planned and artificial language The book looks at the evidential value of these data and assesses the extent to which stereotyped and scripted language can contribute to an understanding of spoken Parisian usage by looking at phonetics syntax discourse lexis and pragmatics By comparing traditional research carried out by scholars in the nineteenth century and earlier with Parisian data collected and analysed by twentieth century researchers the work attempts to identify the salient features that both script writers and actors in these films considered to be characteristic of social group differences at that time

Oral Biblical Criticism Casey W. Davis, 1999-06-01 The Apostle Paul expected the vast majority of the recipients of his letters to hear not read them He structured his compositions for the ear rather than the eye Pauline audiences would hear clues to meaning and structure because they had learned to communicate in a world where those clues were essential to understanding Recognizable structures and patterns were essential for listeners to organize what they heard to follow to predict and to remember the flow of communication Oral Biblical Criticism examines Paul's Epistle to the Philippians in light of recent study of oral principles of composition and interpretation
