Mining the Meaning Katy Shaw, 2012-03-15 This innovative study provides an exciting challenging and accessible critical introduction to cultural representations of 1984 5 and analyses the ways in which these representations articulate an essential dialogic exchange of issues central to both the coal dispute and the development of literary and cultural studies over the past twenty five years Focusing closely on the politics of form the study interrogates the significance of the mode means and function of strikers writings as well as alternative representations of the conflict offered by established writers musicians artists and film makers in the wake of the coal dispute These representations are worthy of study due to the critical interventions they offer their evidence of the cultural pressures and forces of not only the strike period but the post strike years of industrial and labour change and their remarkable contribution to existing social political and literary histories Engaging with these works many of which have never been subject to previous academic analysis the study enables twenty first century readers to re conceptualise paradigms of received wisdom concerning 1984 5 The significance of the competing representations offered by these very different cultural modes as they engage in a wider battle to author the conflict is central to this study Through a detailed analysis of these representations as well as the socio cultural contexts of their production and dissemination this book explores a range of attempts to capture the sensibilities of late twentieth century society and contributes to an ongoing debate regarding cultural representations of this period in British history Influenced by critical theory the text is the first secondary resource concerning cultural representations of the 1984 5 UK miners strike available to the reading public the world over

The Columbia Guide to South African Literature in English Since 1945 Gareth Cornwell,Dirk Klopper,Craig Mackenzie,2010-04-13 From the outset South Africa s history has been marked by division and conflict along racial and ethnic lines From 1948 until 1994 this division was formalized in the National Party s policy of apartheid Because apartheid intruded on every aspect of private and public life South African literature was preoccupied with the politics of race and social engineering Since the release from prison of Nelson Mandela in 1990 South Africa has been a new nation in the making inspired by a nonracial idealism yet beset by poverty and violence South African writers have responded in various ways to Njabulo Ndebele s call to rediscover the ordinary The result has been a kaleidoscope of texts in which evolving cultural forms and modes of identity are rearticulated and explored An invaluable guide for general readers as well as scholars of African literary history this comprehensive text celebrates the multiple traditions and exciting future of the South African voice Although the South African Constitution of 1994 recognizes no fewer than eleven official languages English has remained the country s literary lingua franca This book offers a narrative overview of South African literary production in English from 1945 to the postapartheid present An introduction identifies the most interesting and noteworthy writing from the period Alphabetical entries provide accurate and objective information on genres and writers An appendix lists essential authors published before 1945
