Twentieth-Century English History Plays Niloufer Harben, 1988-03-29 The history play is an extremely popular genre among English playwrights of this century yet very little research has been done in the field In particular the sheer size and complexity of the subject appears to have prevented critics from attempting to arrive at a clear definition of the genre This book examines the term history play afresh seeking to define more precisely the scope and the limits of the genre in relation to twentieth century ideas of and attitudes to history

The Contemporary British History Play Richard H. Palmer, 1998-06-18 British drama since 1956 has been particularly innovative This volume investigates how recent British history plays reflect the methods and values of New History in contrast to traditional biographical dramas that depict the lives of great men of the past More than 50 British playwrights are discussed including John Osborne John Arden Edward Bond Robert Bolt Pam Gems Howard Brenton Caryl Churchill Howard Barker and Peter Shaffer Historical drama consistently displays the sense of history prevalent when it was written a 17th century quest for precedent and analogy the affirmation of cosmic order in the 18th century the Romantic search for manifestations of spiritual purpose in Victorian times a demonstration that humans control events and the early 20th century promise emulating science to present the facts objectively Contemporary British history plays however demonstrate different agendas for history itself Marxist plays illustrate a historical dialect leading to the emergence of Communism Oppositional history takes the point of view of the disenfranchised the defeated or the oppressed Social histories refocus attention away from movers and shakers onto groups of small players Feminist historians expose the biases of a male dominated hegemony and confront the role of gender in history Deconstructionists debunk our confidence in historical metanarratives Postmodernism uses anachronism and stylistic eclecticism to emphasize parallels in different historical periods or to relate historically defined metaphors and rituals to modern experience Both playwrights and critics confront the implications of the idea that history is constructed and not simply found and new approaches to history demand innovations in the staging and
