

A Sexless Marriage Is Very Different Than a Marriage with Boring Sex

A sexless marriage can be a partnership, or a friendship, or a family relationship, but it does not usually feel to either partner to be a romantic relationship.

This is very different from a marriage where sex is boring or routine.

Everything can become boring or routine with enough iterations of it, no matter what. Certainly, you can try different things in bed, as discussed often, but there are only so many things one can do over decades of marriage. This is understandable by any person with objectivity and empathy, and this boredom does not make the average man leave his wife.
