George, 2005-06-22 Does ETI existence spell the death of Christianity The increasingly popular answer is yes Marie George argues to the contrary that Christian belief is compatible with ETI existence by examining Roman Catholic teaching and Scripture She then makes a case that while Christian belief does not exclude ETI existence it does render it improbable George goes on to expose the faulty reasoning behind the common opinion that science indicates that the universe surely contains other intelligent life forms She closes with speculations on what the Catholic Church might eventually say about ETIs Central to her analysis is the cosmic role of Christ I appreciate arguments like those in *Christianity and Extraterrestrials* laid out carefully and investigated thoroughly If more writers proceeded with Dr George s care and courtesy there would be new hope for peace in the world John L Barger Ph D Publisher Sophia Institute Press Although some of Dr George s claims are controversial she is clearly an author seeking the truth and open to opposing arguments Moreover she has sought out the best sources and used them wisely in short an admirable scholarly presentation Michael J Crowe Cavanaugh Professor Emeritus University of Notre Dame and author of *The Extraterrestrial Life Debate 1750 1900* *A Dictionary of the Hindee Language*, 1875 The London Quarterly Review, 1876 A Manual of Ascetical Theology Arthur Devine, 1902 The History of All Religions of the World William Burder, 1880 **The History of All Religions** William Burder, 1872 **The Architecture of Ancient Delhi, Especially the Buildings Around the Kutb Minar** Cole, 1872
