Th Century Philosophers:

The Heavenly City of the Eighteenth-century Philosophers Carl Lotus Becker, 2003-01-01 Here a distinguished American historian challenges the belief that the eighteenth century was essentially modern in its temper In crystalline prose Carl Becker demonstrates that the period commonly described as the Age of Reason was in fact very far from that that Voltaire Hume Diderot and Locke were living in a medieval world and that these philosophers demolished the Heavenly City of St Augustine only to rebuild it with more up to date materials In a new foreword Johnson Kent Wright looks at the book s continuing relevance within the context of current discussion about the Enlightenment Will remain a classic a beautifully finished literary product Charles A Beard American Historical Review The Heavenly City of the Eighteenth Century Philosophers remains one of the most distinctive American contributions to the historical literature on the Enlightenment It is likely to beguile and provoke readers for a long time to come Johnson Kent Wright from the foreword The Age of Analysis Morton White, 1970 *Ideas of the Twentieth Century* Daniel Bonevac, 2014-01-15 The twentieth century ushered in significant progress as philosophers scientists artists and poets across the world improved the way we lived Yet the last century also brought increased levels of war tyranny and genocide and people lost faith in values Now thinkers and leaders are reconstructing theories of value and creating institutions to embody them In this thought provoking broad sweeping course you will learn how philosophy art literature and history shaped the past century and continue to impact our world today **The Age of Analysis** , 1957 *One Hundred Twentieth-Century Philosophers* Stuart Brown, 2017-06-28 One Hundred Twentieth Century Philosophers offers biographical information and critical analysis of the life work and impact of some of the most significant figures in philosophy this century Taken from the acclaimed Biographical Dictionary of Twentieth Century Philosophers the 100 entries are alphabetically organised from Adorno to Zhang Bingle and cover individuals from both continental and analytic philosophy The entries have an identical four part structure making it easy to compare and contrast information comprising biographical details a bibliography of major works a listing of relevant secondary and critical literature an appraisal of the philosopher s thoughts and achievements A separate glossary provides an introduction to the origins development and main features of major philosophical schools and movements and offers select bibliographies to guide the reader to further research *45 Great Philosophers and What They Mean for Judaism* Shmuly Yanklowitz, 2024-06-18 In this new forty five chapter series Rabbi Shmuly explores forty five of the most influential philosophers throughout history and how Jewish ideas might engage with each of the philosophers and their philosophical projects At times Judaism may need to reject harmful foreign ideas Other times Judaism may need to adapt integrate and expand There are many other approaches we ll see of how Jewish thought can engage with other philosophies as well In this exciting new exploration we learn about Jewish intellectual history and what it means for us today *Political Philosophers of the Twentieth Century* Michael Lessnoff, 1999-01-12 This volume provides an outstanding survey of the major political
