Foundations is structured to be used as a reference guide and Josh includes screenshots of what you should and shouldn't do in various areas. One of the most frequently misunderstood aspects of working as a freelancer on Upwork is how the Job Success Score (JSS) works. This is the most critical metric on Upwork and not approaching it correctly can make the difference between a successful career and failing to launch. Josh commits an entire section to understanding the JSS, digging into how the JSS is calculated, why you don't have one, JSS you actually have three, how contracts are weighted differently as they factor into your JSS, avoiding common JSS pitfalls, how to overcome JSS problems when they occur, establishing an excellent Job Success Score right away, the benefits of a good JSS, how to keep your JSS stable. After you've gotten started on Upwork, the trickiest parts can be finding the right jobs, picking good clients, and maintaining a steady work flow. A substantial portion of Freelancing Foundations is dedicated to optimizing your job feed to discover contracts that are perfectly suited to you, using advanced search filters to eliminate jobs you don't want, knowing the difference between what a freelancer sees and a client's view, how each aspect of your profile affects the way clients search for you. Finally, the book concludes with a section on operating successfully as a freelancer. You'll learn how to identify soft skills you should prioritize, interact with even the most difficult clients, understand the culture of freelancing, maximize your rates and give yourself regular raises, set workdays, establish working hours, and create a vacation time policy. Josh began freelancing as a last resort, hoping to earn a bit of side cash. A quarter million dollars later, it's obvious this last ditch effort paid off. In Freelancing Foundations, he shows you how to do the same.

Connie posted an ad on Craigslist offering web services, and her VERY FIRST CALL was a call even I couldn't tackle. The customer wanted to have a website built. The website they wanted built was a psychic hotline where customers were billed by the minute. They wanted all of these features, such as phone call capabilities, and I mean the complete works. Naturally, Connie was frustrated, and she emailed me. I immediately emailed her and advised her how to proceed by booking the job, getting paid doing 75% of what

she already knew And outsourcing the remaining part The website was successfully completed with stellar reviews within 3 days Connie signed up with Get Digital World and in 3 months she made her first customer She charged 1200 00 to build the psychic Hotline site Got paid immediately and did 75% of the work on her own With our tools Then on my advice outsourced the remaining part to a freelancer for only 125 00 Her profit 1075 The customer was quoted over 3000 00 by a company called web com prior to calling Connie So in the end not only was Connie successful and happy but so was the customer The customer got the site for more than 50% of what they were originally quoted Faster than the other company And the most beautiful part if that customer ever wants to change their website Who will they likely call Connie is my guess This is an example of how Get Digital World stands by our customers We go WAY beyond the site We re a family And while you re on your own in your online career you re never REALLY alone Finally If these methods work why don t you do it yourself It s the very question I know I would ask We Do To Date we have built and assisted in building nearly 7000 websites We ve produced amazing audio books Mobile Apps Books on Your Android Devices Nearly 50 Books published on Amazon iBooks Google Barnes Noble While also offering a full and complete WordPress Business and Home Health eCoaching business While I cannot guarantee your success I CAN guarantee you this If you do not treat your customers well they will shop elsewhere Always give your best No matter if they are paying you a single dollar or a million That same service is what I and all of the staff here at Get Digital World Aim to give you And if you feel that you have not gotten the very best from us let us know via the many contact forms we have scattered around our site We will make it right
