

Aesthetic Values

Alan Goldman

Aesthetic Values:

Aesthetic Values T. Pawlowski,2012-12-06 What is aesthetic value A property in an object An experience of a perceiving person An ideal object existing in a mysterious sphere inaccessible to normal cognition Does it appear in one form only or in many forms perhaps infinitely many Is it something constant immutable or rather something susceptible to change depending on the individual the cultural milieu or the epoch Is a rational defence of aesthetic value judgements possible or is any discussion of this topic meaningless The above questions arise out of the most complicated philosophic problems Volumes have been written on each of them The discussions which continue over the centuries the plurality of views and suggested solutions indicate that all issues are controversial and contestable Each view can adduce some arguments supporting it each has some weaknesses Another source of difficulty is the vagueness and ambiguity of the language in which the problems are discussed This makes it hard to understand the ideas of particular thinkers and sometimes makes it impossible to decide whether different formulations express the actual divergence of views or only the verbal preferences of their authors Let us add that this imperfection does not simply spring from inaccuracy on the part of scholars but also results from the complexity of the problems themselves The matter is further complicated by important factors of a social character

The Aesthetic Value of the World Tom Cochrane,2021-11-25 In *The Aesthetic Value of the World* Tom Cochrane defends Aestheticism the claim that everything is aesthetically valuable and that a life lived in pursuit of aesthetic value can be a particularly good one Furthermore in distilling aesthetic qualities artists have a special role to play in teaching us to recognize values a critical component of virtue Cochrane grounds his account upon an analysis of aesthetic value as objectified final value which is underwritten by an original psychological claim that all aesthetic values are distal versions of practical values This is followed by systematic accounts of beauty sublimity comedy drama and tragedy as well as appendix entries on the cute the cool the kitsch the uncanny the horrific the erotic and the furious

Aesthetic Value Alan Goldman,2018-02-20 This book focuses on the question of aesthetic value using many practical examples from painting music and literature Alan Goldman argues for a non realist view of aesthetic value showing that the personal element can never be factored out of evaluative aesthetic judgments

Art in Context David E. W. Fenner,2008 Fenner presents an overview of the arguments about the importance of considering relevant context in determining the merit of a work of art

Aesthetic Quality and Aesthetic Experience Michael H. Mitias,1988 No detailed description available for Aesthetic Quality and Aesthetic Experience

A Study of Aesthetic Values in Relation to Pictorial Matter John Roy Campbell,1930 Perception and Aesthetic Value

Harold Newton Lee,1967 *Experience as Art* Joseph H. Kupfer,2015-08-12 Joseph Kupfer removes aesthetics from the exclusive province of museums concert halls and the periphery of human interests to reveal the impact of aesthetic experience on daily living He combines philosophical aesthetics and critical analysis to indicate the status of aesthetic values in ordinary life showing how aesthetic qualities and relations contribute to social moral and personal values In examining the

practical implications of aesthetic values for sports sexual relationships violence and education Kupfer also looks at the effect of aesthetic deprivation

The Nature of Aesthetic Value Hugo Anthony Meynell, 1986-01-01 The Nature of Aesthetic Value proposes that aesthetic goodness the property in virtue of which works of art are valuable is a matter of their capacity in appropriate circumstances to give satisfaction It inquires into the nature of this satisfaction arguing that it consists of the extension and clarification of consciousness This provides a basis for treatment of the ancient problem of the relation between cultivation of the arts and the pursuit and maintenance of the true and the good The book summarizes critics judgments and arguments on literature the visual arts and music testing the author's theory about the nature of aesthetic opinion

Being for Beauty Dominic McIver Lopes, 2018-09-13 No values figure as pervasively and intimately in our lives as beauty and other aesthetic values They animate the arts as well as design fashion food and entertainment They orient us upon the natural world And we even find them in the deepest insights of science and mathematics For centuries however philosophers and other thinkers have identified beauty with what brings pleasure Concerned that aesthetic hedonism has led us to question beauty's significance Dominic McIver Lopes offers an entirely new theory of beauty in this volume Beauty engages us in action in concert with others in the context of social networks Lopes's network theory explains the social dimension of aesthetic agency the tie between beauty and pleasure the importance of disagreement in matters of taste and the reality of aesthetic values as denizens of the natural world The two closing chapters shed light on why aesthetic engagement is so important to quality of life and why it deserves and gets lavish public support Being for Beauty offers a fresh contribution to aesthetics but also to thinking about metanormativity the metaphysics of value and virtue theory

Aesthetics Nicolai Hartmann, 2014-11-10 The book is the first English translation of Nicolai Hartmann's final book published in 1953 It will be of value to graduate students in philosophy scholars concerned with 20th century Continental philosophy students of aesthetics and art history and criticism and persons in and out of academic philosophy who wish to develop their aesthetic understanding and responsiveness to art and music Aesthetics Hartmann believes centers on the phenomenon of beauty and art objectivates beauty but beauty exists only for a prepared observer Part One explores the act of aesthetic appreciation and its relation to the aesthetic object It discovers phenomenologically determinable levels of apprehension Beauty appears when an observer peers through the physical foreground of the work into the strata upon which form has been bestowed by an artist in the process of expressing some theme The theory of the stratification of aesthetic objects is perhaps Hartmann's most original and fundamental contribution to aesthetics He makes useful and perceptive distinctions between the levels in which beauty is given to perception by nature in the performing and the plastic arts and in literature of all kinds Part Two develops the phenomenology of beauty in each of the fine arts Then Hartmann explores some traditional categories of European aesthetics most centrally those of unity of value and of truth in art Part Three discusses the forms of aesthetic values Hartmann contrasts aesthetic values with moral values and this exploration

culminates in an extensive phenomenological exhibition of three specific aesthetic values the sublime the charming and the comic A brief appendix never completed by the author contains some reflections upon the ontological implications of aesthetics Engaged in constant dialogue with thinkers of the past especially with Aristotle Kant and Hegel Hartmann corrects and develops their insights by reference to familiar phenomena of art especially with Shakespeare Rembrandt and Greek sculpture and architecture In the course of his analysis he considers truth in art the true to life and the essential truth the value of art and the relation of art and morality The work stands with other great 20th century contributors to art theory and philosophical aesthetics Heidegger Sartre Croce Adorno Ingarden and Benjamin among others

Aesthetics and the Philosophy of Art Peter Lamarque, Stein Haugom Olsen, 2018-12-06 For over fifty years philosophers working within the broader remit of analytic philosophy have developed and refined a substantial body of work in aesthetics and the philosophy of art curating a core foundation of scholarship which offers rigor and clarity on matters of profound and perennial interest relating to art and all forms of aesthetic appreciation Now in its second edition and thoroughly revised **Aesthetics and the Philosophy of Art The Analytic Tradition An Anthology** captures this legacy in a comprehensive introduction to the core philosophical questions and conversations in aesthetics Through 57 key essays selected by leading scholars Peter Lamarque and Stein Haugom Olsen this anthology collects modern classics as well as new contributions on essential topics such as the identification and ontology of art interpretation values of art art and knowledge and fiction and the imagination New to this edition are selections which treat aesthetic experience more widely including essays on the aesthetics of nature and aesthetics in everyday life Other carefully chosen pieces analyze the practice and experience of specific art forms in greater detail including painting photography film literature music and popular art such as comics This bestselling collection is an essential resource for students and scholars of aesthetics designed to foster a foundational understanding of both long standing and contemporary topics in the field

The Oxford Handbook of Mental Health and Contemporary Western Aesthetics, 2025-01-02 Human flourishing depends upon the mental health of the individuals Throughout history various cultural traditions have established and practiced diverse strategies to maintain their community members mental health treat their mental illness and enhance their well being They range from spiritual disciplines religious rituals and philosophical training to communal activities educational instructions and community support It is noteworthy that aesthetic objects and activities are frequently integrated into these strategies They include visual arts music dance story telling theatre and occasions and events made special by certain foods drinks decorations clothes and fragrance This long held and widely practiced integration of aesthetics into promotion of mental health testifies to the power of the aesthetic to affect the well being of humans and their communities The world s major philosophies and religious traditions have recognized this power of the aesthetic For example Plato s proposed censorship of the arts in his utopian Republic indicates his acknowledgement of and a respect for the power of the arts to mold the citizens psyche and character Confucianism also utilizes arts and rituals

to promote moral virtues Finally Buddhism teaches the cultivation of mindful practice for human flourishing by developing an alternative relationship with present moment experience such as suffering and distress Today the most dominant methods of treating mental illness in the West are psychotherapy psychology and psychiatry methodologies and practices established and developed in Europe since the nineteenth century Ever since the birth of art and poetry its purpose has been to inspire stir and move people This handbook addresses the valuable role aesthetics plays in psychotherapy and psychiatry exploring both theory and practice

Disciplinary aesthetics: The role of taste and affect for teaching and learning specific school subjects Per-Olof Wickman,Per Anderhag,Cecilia Caiman,Steph Ainsworth,2024-04-04 Aesthetics and the

Philosophy of Art Robert Stecker,2005 In Aesthetics and the Philosophy of Art Robert Stecker introduces students to the history and evolution of aesthetics and also makes an important distinction between aesthetics and philosophy of art While aesthetics today is the study of value philosophy of art deals with a much wider array of questions not just about value addressing issues in metaphysics epistemology and the philosophy of mind as well Aesthetics and the Philosophy of Art is an essential introduction to some of the central topics and approaches being debated in contemporary aesthetics and philosophy of art By taking a stand on each of the issues addressed and arguing for certain resolutions and against others the text does not simply present a controversy in its current state of play but instead helps to advance it toward a solution Aesthetic

Values K. E. Boullart,1985 **Consumer Value** Morris B. Holbrook,1999 Consumer Value is one of the few books that attempts to define and analyse exactly what consumers want By setting down a new and innovative framework for the concept of value it is as provocative as it is rigorous **How to Study Art Worlds** Hans van Maanen,2009 Hans van

Maanen is professor of art and society at the Department of Arts Culture Media Studies of the University of Groningen the Netherlands Representation and Form Walter Abell,1971 *Aesthetics of the Novel* Van Meter Ames,1928
