## **Atlantic Provinces In Confederation:**

**The Atlantic Provinces in Confederation** Ernest R. Forbes, Delphin A. Muise, 1993-12-15 Canada's four easternmost provinces while richly diverse in character and history share many elements of their political and economic experience within Confederation. In this volume thirteen leading historians explore the shifting tides of Atlantic Canada's history beginning with the union of Nova Scotia and New Brunswick with Ontario and Quebec to form the Dominion in 1867. Continuing on through Prince Edward Island's entry into Confederation six years later and Newfoundland's in 1949 they take the story of Atlantic Canada up to the 1980s. Collectively their work sheds light on the complex political dynamic between the region and Ottawa and reveals the roots of current social and economic realities. Fragmentation versus integration, plenty versus scarcity, centre versus periphery and other models inform their analysis. The development of regional disparity and responses to it form a major theme. The tradition of regional protest by Maritimers and later Atlantic Canadians runs deep so does their commitment to the idea of an integrated Canadian nation. Protests over the decades have primarily been expressions of frustration at perceived exclusion from the full benefits of national union. The creation of national markets for labour, capital and goods often operated to their detriment and political decisions at the national level frequently reinforced rather than alleviated the regional predicament. More than an account of the wealthy and powerful, this book often places ordinary men and women at the centre of the story. Above all it reveals the resilience of Atlantic Canadians as they have struggled to overcome their problems and to share in the benefits of life in the Canadian community. *Atlantic Canada & Confederation* David G. Alexander, 1983-05 The nine essays in this posthumous volume are linked by a recurring theme: an affirmation of the integrity and viability of the small society and culture in the economic blocs and political federations of the modern world. Alexander maintained that there was an economic base for the provinces of Atlantic Canada in the resources of the region and the genius of its people. In these essays he launched an assault on the beliefs that hindered the development of that base while searching for policies necessary to sustain that society. He indicated Canadian trade policies. He stated that neither the date nor the fact of entry into Confederation offered an economic panacea for any of the Atlantic provinces but that the question of political and economic accommodation within the larger federation was critical. Alexander's study of the rise and decline of the shipping industry in Atlantic Canada in the nineteenth century revealed a regional industry with resources, capital and entrepreneurial talent to compete successfully in international trade. It also reinforced his belief that subsequent regional disadvantages grew as much from institutional and political factors as from the unimpeded operation of comparative advantage and market forces. The volume pleads for a stronger federalism based on the belief that the survival of the Canadian Confederation depends upon the rebirth of pride and self-respect among Canada's diverse peoples. These essays are part of that heritage and that rebirth. **The Atlantic Region to Confederation** Phillip Buckner, John G. Reid, 2017-06-22 Nearly thirty years ago W. S. MacNutt published the first general history of the Atlantic provinces before

Confederation An outstanding scholarly achievement that history inspired much of the enormous growth of research and writing on Atlantic Canada in the succeeding decades Now a new effort is required to convey the state of our knowledge in the 1990s Many of the themes important to today s historians notably those relating to social class gender and ethnicity have been fully developed only since 1970 Important advances have been made in our understanding of regional economic developments and their implications for social cultural and political life This book is intended to fill the need for an up to date overview of emerging regional themes and issues Each of the sixteen chapters written by a distinguished scholar covers a specific chronological period and has been carefully integrated into the whole The history begins with the evolution of Native cultures and the impact of the arrival of Europeans on those cultures and continues to the formation of Confederation The goal has been to provide a synthesis that not only incorporates the most recent scholarship but is accessible to the general reader The book re assesses many old themes from a new perspective and seeks to broaden the focus of regional history to include those groups whom the traditional historiography ignored or marginalized

**Inventing Atlantic Canada** Corey James Arthur Slumkoski, 2011-01-01 When Newfoundland entered the Canadian Confederation in 1949 it was hoped it would promote greater unity between the Maritime provinces as Term 29 of the Newfoundland Act explicitly linked the region s economic and political fortunes On the surface the union seemed like an unprecedented opportunity to resurrect the regional spirit of the Maritime Rights movement of the 1920s which advocated a cooperative approach to addressing regional underdevelopment However Newfoundland s arrival did little at first to bring about a comprehensive Atlantic Canadian regionalism Inventing Atlantic Canada is the first book to analyse the reaction of the Maritime provinces to Newfoundland s entry into Confederation Drawing on editorials government documents and political papers Corey Slumkoski examines how each Maritime province used the addition of a new provincial cousin to fight underdevelopment Slumkoski also details the rise of regional cooperation characterized by the Atlantic Revolution of the mid 1950s when Maritime leaders began to realize that by acting in isolation their situations would only worsen
