Atlas Of Modern History:

The Penguin Atlas of Modern History (to 1815) Colin McEvedy, 1972 In the Penguin atlas of modern history Colin McEvedy has compiled an absorbing source of reference to the major developments of modern history from 1483 to 1815 Nearly forty maps and detailed commentary follow the voyages of Columbus Magellan and Cook the ebb of power from the Mediterranean to the Atlantic seaboard and the protracted European struggle for control of a vast new money economy

The Penguin Atlas of Modern History Colin MacEvedy, 1983 **The Penguin Atlas of Modern History (To 1815); Maps Devised by the Author and Lettered by Ivan Atanasoff** Colin Mcevedy, 1972 **A New School Atlas of Modern History** Ramsay Muir, 1921 *Macmillan's Historical Atlas of Modern Europe* F. J. C. Hearnshaw, 2015-07-05 Excerpt from Macmillan's Historical Atlas of Modern Europe A Select Series of Maps Illustrative of the Recent History of the Chief European States and Their Dependencies The events of recent years have shaken the British peoples out of their insularity and have caused them to turn as never before to the study of international affairs The rumours of war which alarmed them in 1905 1908 and 1911 still more the actual conflicts which broke the tranquillity of Europe in 1912 1913 and 1914 impressed them with a consciousness that there were operating in the world gigantic and elemental forces of which they were ignorant and filled them with a new desire to know the things that appertained to their peace Such history as the better educated among them had learned at school had as a rule abruptly ended with the battle of Waterloo and the departure of Napoleon to St Helena in 1815 and it was clearly evident that most of the acute problems which divided the nations into hostile groups had arisen since that date and that not a few of them had had their source in that very Vienna Settlement which had followed the fall of the Bonapartist empire Hence came a demand from thoughtful students of politics for text books of nineteenth century history from which they should be able to learn the antecedents of those vexing questions and those conflicting claims which were causing so frightful an upheaval among men The demand called forth an answering supply and there is now no lack of trustworthy guides to the intricacies of modern history History is however intimately bound up with geography At almost every turn of the narrative the reader if he desires fully to comprehend what he is perusing has occasion to refer to an atlas Although some of the recent text books are provided with useful sketch plans it is felt that there is urgent need of a more complete series of historical maps which may serve as a companion to any or all of the narrative volumes That series is herewith diffidently presented to the public Since each map is accompanied by an explanatory introduction only a few words of general preface seem here to be necessary First it will be noted that attention is concentrated on political and ethnographical features Experience has shown that it is impossible to add physical features to a political or ethnographical map without causing inextricable confusion Students are therefore recommended to have by their side for reference and comparison an atlas in which physical features alone are given Secondly it will be seen that most of the maps restrict themselves to showing the trans mutations of the century 1815 1914 A few however have to go back for clearness sake to an

earlier date e g Poland to 1772 France to 1598 and Prussia to 1415 One map viz The last makes an attempt to depict the changes in Europe effected by the peace treaties of 1919 20 In some of its details it is necessarily tentative For although Western Europe seems to have reached some sort of stability in the East of the Continent all things continue in a state of ux N o pretence can yet be made to indicate the shape of the cosmos which some day must emerge from the Russian chaos About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com
