Williams, 1974-10 *Crisis in European Defence* Geoffrey Lee Williams, Alan Lee Williams, 1974 Den kolde krig Analyse af forsvaret af Europa p baggrund af forholdene mellem de vesteurop iske stater og USA p den ene side og Sovjetunionen p den anden side *The Politics of Crisis in Europe* Mai'a K. Davis Cross, 2017-03-02 *The Politics of Crisis in Europe* explores the resilience of the European Union in the face of repeated crises perceived to threaten its very existence While it is often observed after the fact that these crises serve as opportunities for integration this is the first critical analysis to suggest that we cannot fully understand the nature and severity of these crises without recognising the role of societal reaction to events and the nature of social narratives about crisis especially those advanced by the media Through a close examination of the 2003 Iraq crisis the 2005 constitutional crisis and the 2010 12 Eurozone crisis this book identifies a pattern across these episodes demonstrating how narratives about crises provide the means to openly air underlying societal tensions that would otherwise remain under the surface impeding further integration

The Foreign Policy of the European Union Federiga Bindi,2022-10-04 An all inclusive exhaustive evaluation of the foreign policy of the European Union Fourteen years ago the 2009 Lisbon Treaty put into place the legal and structural foundations for the European Union to play a role as a global actor In the decade since the EU itself has undergone intense political and economic stress from debt crises to the rise of nationalist parties and the strains of Brexit What effect have these changes had on the EU s foreign policy and its role in the world This new edition of *The Foreign Policy of the European Union* offers an up to date and comprehensive examination of that question The globe spanning contributions to the book include a look at relations between Brussels and its regional neighbors including Russia the tensions that have arisen with the United States during the Trump administration and the burgeoning relationship with China How the EU is dealing with issues such as migration terrorism trade and security round out the volume

French-German Military Cooperation and European Defence Delphine Deschaux-Dutard,2025-01-29 This book examines the role of French German cooperation within European military cooperation and European defence and particularly the CSDP Common Security and Defence Policy The work explores whether Franco German bilateral leadership is still relevant in European defence and military cooperation at the EU level and analyses the reasons for its difficulties in the current context of the return to conventional warfare on the European continent With an innovative research design that mixes a conceptual framework discursive institutionalism with tools from the sociology of International Relations the book offers both a macro and an actor level perspective The focus on the strategic discourses of both French and German actors and the institutional settings within which these discourses develop also enables to better grasp the complexity of military cooperation and the recurring limits of bilateral leadership by Paris and Berlin Based on extensive fieldwork in Paris Berlin and Brussels over the past two decades including data collected since 2022 the book offers a longitudinal view of the issue as well as the most recent developments since the outbreak of the war in Ukraine This book will be of much interest to students of European security European politics and security studies in general

European-Russian Power Relations in Turbulent Times Mai'a Cross,Ireneusz Pawel Karolewski,2021-04-13 The Russia Europe relationship is deteriorating signaling the darkest era yet in security on the continent since the end of the Cold War In addition the growing influence of the Trump administration has destabilized the transatlantic security community compelling Europe especially the European Union to rethink its relations with Russia The volume editors primary goal is to illuminate the nature of the deteriorating security relationship between Europe and Russia and the key implications for its future While the book is timely the editors and contributors also draw out long term lessons from this era of diplomatic degeneration to show how increasing cooperation between two regions can devolve into rapidly escalating conflict While it is possible that the relationship between Russia and Europe can ultimately be restored it is also necessary to understand why it was undermined in the first place The fact that these transformations occur under the backdrop of an uncertain transatlantic

relationship makes this investigation all the more pressing Each chapter in this volume addresses three dimensions of the problem first how and why the power status quo that had existed since the end of the Cold War has changed in recent years as evidenced by Russia's newly aggressive posturing second the extent to which the EU's power has been enabled or constrained in light of Russia's actions and third the risks entailed in Europe's reactive power that is the tendency to act after the fact instead of proactively toward Russia in light of the transatlantic divide under Trump

Public Opinion on European Security and Defense Franz Kernic, Jean Callaghan, Philippe Manigart, 2002 This study analyzes the relationships between public opinion and Europe's new security policy It aims to explore current perceptions of European integration security and defense in EU member states Its main focus is on a comparison of prevailing attitudes toward the idea of closer European cooperation in security policy with an emphasis on CFSP ESDP and the EU Rapid Reaction Force It also sheds light on current perceptions of threat among the populations of European states The analysis is based on a comparison of available empirical data from public opinion polls and country studies including the results of the recently published Eurobarometer Survey 54 1 Contents Public Opinion European Integration Common Foreign and Security Policy CFSP European Security and Defense Policy ESDP Rapid Reaction Force Threat Perceptions Security Policy National Defense

The Impact of the Financial Crisis on European Defence, 2011 The financial crisis may pose a risk as well as offer an opportunity for the European defence sector on the one hand it sounds plausible that shrinking budgets increase the pressure on member states to cooperate and thus overcome the EU's problems related to capability development and restructuring of the defence industries and markets On the other hand national prerogatives still dominate despite a decade of rhetoric and initiatives for more cooperation and less state in EU defence If this national focus continues to dominate under current financial circumstances EU member states run the risk to implement cuts in their Armed Forces in an uncoordinated way As a result member states might end up with potentially even bigger capability gaps than they have today and hence even less opportunities to implement the Common Security and Defence Policy CSDP This study provides a comprehensive and detailed overview on the ongoing impact of the financial crisis on EU Member States defence spending In addition it examines the potential of overcoming the need to cut defence spending by greater cooperation in the framework of the European Union and by drawing upon the innovations in the Lisbon Treaty The study highlights the need to address the challenges of the economic crisis a growing number of initiatives by various EU countries as well as the opportunities the Lisbon Treaty offers for pursuing an effective defence sector strategy that goes beyond the current incremental approach The study has been requested to provide Members of the European Parliament broader defence policy community and European public a first comprehensive overview of the impact of the financial crisis on European defence and at the EU level as well as its wider impact on the future of the Common Security and Defence Policy CSDP It includes recommendations to be developed by the European Parliament and decision makers at the national and EU level in order to address the economic

crisis whilst ensuring Europe retains defence capabilities to respond to future security challenges The Rise and Fall of the European Defence Community Kevin Ruane,2000 Using the European Defence Community EDC as a case study this book examines the competing and often conflicting view of the British and American governments towards European integration in the early 1950s The British fearing an agonizing reappraisal of the American defence commitment to Europe if the supranational EDC failed went to great lengths to ensure the success of the scheme When despite these efforts the EDC finally collapsed in August 1954 NATO was plunged into arguably the most severe crisis in its history The crisis also possessed an Anglo American dimension with London and Washington badly divided on how it should be resolved In the end the British were instrumental in the creation of the Western European Union as a successor to the EDC Their crisis management however had been rooted in fear of the agonizing reappraisal a danger dismissed by many historians as exaggerated but which the British in 1954 were perhaps right to take seriously **Revolution in Military Affairs** Elinor Camille Sloan,Raoul-Dandurand Chair of Strategic and Diplomatic Studies,2002 The campaign in Afghanistan the Gulf war and Kosovo show how advances in information technology are driving a high tech revolution in military affairs RMA This text outlines elements of the RMA and examines efforts of the US and NATO **Crisis Stability in Europe and Theatre Nuclear Weapons** Wolfgang Heisenberg,1973 **The New York Times Index** ,1922 European Defence François Heisbourg,2000 **The World's Work War Manual of the Great Conflict of 1914** World's work,Arthur W. Claude-France Arnould,2009 The European Security and Defence Policy ESDP has reached an important milestone in its development This year marks its tenth anniversary This book is therefore an important contribution to the strategic debate looking ahead to where ESDP could and should be ten year from now It covers the range of key issues that we need to consider in taking ESDP forward into its second decade policy analysis of challenges strategy partnerships structures capabilities P 7 **A Particular Account of the European Military Adventurers of Hindustan from 1784 to 1803** ,1895
