

Criterion Referenced Evaluation

Criterion-referenced evaluation are designed to measure student performance against a fixed set of predetermined criteria or learning standards—i.e., concise, written descriptions of what students are expected to know and be able to do at a specific stage of their education.(fail or pass only)

Criterion-referenced tests compare a student's knowledge and skills against a predetermined standard, cut score, or other criterion.

In criterion-referenced tests, the performance of other students does not affect a student's score.
