Critical Judgment Michael Palmer, 1998-01-05 In the tiny town of Patience, California, newcomer Dr. Abby Dolan has noticed a frightening syndrome among her emergency room patients. It begins with a baffling, seemingly minor set of symptoms but builds relentlessly until it plunges its victims into insane, murderous rages. As she searches for clues to this deadly mystery, Abby's superiors make it clear her probing is unwelcome. Soon Abby will learn just how high the cost of the truth may be and how far someone will go to keep a lethal secret. But she may not find the answer until it's too late to save her patients, her career, her life.

Enaction Domenico Masciotra, Wolff-Michael Roth, Denise Morel, 2007-01-01 This book is addressed to all those in the field of education or related fields including teachers teacher trainers consultants and researchers who are interested in exploring the question What does it mean to know to learn and to teach Contrary to popular conceptions an enactive perspective assumes that knowing and learning are not disembodied operations that take place solely in a person's head Rather they are a function of the whole person who is firmly situated in the world and who acts in the world to transform it just as she is transformed by it The dynamic and transformational nature of knowing and learning are reflected in the relationship between the person and her world a relationship that evolves through acting in and with the world rather than abstracting oneself from it Knowing develops as a function of the person's availability that is her full involvement and presence in the here and now The aim of education is thus to foster the development of this relationship in a never ending quest for deep interiority with the world Drawing on their experiences as teachers curriculum developers students Zen practitioners karateka bicyclists hobby mathematicians and gardeners the authors provide many concrete examples of what it means to think about knowing and learning in terms of enaction and how teachers and curriculum developers who take enactivism seriously might go about designing and implementing lessons
