Informed Choices Tara Lockhart, Mark Roberge, 2015-02-27. Combining sound theory with rich hands-on activities, *Informed Choices: A Guide for Teachers of College Writing* is built on the premise that teaching writing is not about mastering a single best practice but instead requires being responsive to a series of tradeoffs and paradoxes. Ideal for new TAs and experienced professors alike, it helps teachers navigate complex choices about course design, assessment, even professional growth, all within the context of trends in the field, institutional expectations, and their evolving pedagogical philosophies.

Academic Cultures: Professional Preparation and the Teaching Life Sean P. Murphy, 2008. For better or for worse, the goal of securing tenure-track assistant professorships frames the graduate school experience for most students. Yet what the graduate experience boasts in scholarly training, it lacks in institutional training that is in guiding future faculty members to see and experience positively the wide variety of prospective professional identities rooted in assorted academic cultures. *Academic Cultures: Professional Preparation and the Teaching Life* gives voice to diversity in postsecondary education, a strength of the system rather than a problem to redress. Contributors, whether they work at a private high school or a public comprehensive university, an open access institution, or a religiously affiliated college, disclose to readers the details and outcomes of their cross-sector transitions. Their accounts show how faculty members from a range of institutions have built rewarding professional lives based on the traditional components of the professoriate: teaching, service, and scholarship.
