Critical Approaches to Caragiale's Writings: From the Pressure of the Totalitarian Ideology to Postmodern Re-configurations

Contoman Oana Andreea¹

Abstract

During the Romanian totalitarian age, Caragiale's writings were read through the doctrinaire pattern subjected to the political ideology of the Communist Party which deeply de-formed the politics - aesthetics relationship, favouring the former. Nevertheless, in the contemporary literary critique, Caragiale's "Momente și schițe" (Moments and Sketches) as well as his comedies are revised by taking into account their "classical" interpretation, enhancing the new canonical status of Caragiale's work. Obviously, Livia Papadima's critical approach is different from Mihail Novicov's ideological analysis, the former focusing on the dominance of the aesthetic criterion. Irrespective of the critical approach and of the reading pattern applied, the fact remains that Caragiale's literary discourse is ever more appealing to contemporary readership.

Critical Approaches to Life Writing Methods in Qualitative Research Thalia M. Mulvihill, Raji Swaminathan, 2017-04-07

Life writing projects have become part of the expanding field of qualitative research methods in recent years and advances in critical approaches are reshaping methodological pathways. *Critical Approaches to Life Writing Methods in Qualitative Research* gives researchers and students looking for a brief compendium to guide their methodological thinking a concise and working overview of how to approach and carry out different forms of life writing. This practical book reinvigorates the conversation about the possibilities and innovative directions qualitative researchers can take when engaged in various forms of life writing such as biography, autobiography, autoethnography, life history, and oral history. It equips the reader with the tools to carry out life writing projects from start to finish, including choosing a topic or subject, examining lives as living data, understanding the role of documents and artifacts, learning to tell the story, and finally writing, performing, displaying through the voice of the life writer. The authors also address the ways a researcher can begin a project, work through the issues they might face along the journey, and arrive at a shareable product. With its focus on the plurality of life writing methodologies, *Critical Approaches to Life Writing Methods in Qualitative Research* occupies a distinct place in qualitative research scholarship and offers practical exercises to guide the researcher. Examples include exploring authorial voice, practical applications of reflexivity, exercises on the relationship between the narrator and participants, navigating the use of public and private archives, understanding the processes of collaborative inquiry and collaborative writing, and writing for various audiences.

Critical Thinking in Academic Writing Shi PU, 2021-08-30

The book inquires into critical thinking through a cultural approach. Based on an ethnographic study, it compares Chinese postgraduate students' conceptualisations and applications of critical thinking in three different settings in China and the UK. From an insider's perspective, it analyses the intricate interplay of multiple cultural and individual factors that condition students' critical thinking development as they learn to write an academic thesis and to manage postgraduate learning. The book offers insights into the nature of problems that Chinese students encounter with critical thinking and envisions possibilities for the ideas for critical thinking to have a transformative power in an intercultural space. The book will primarily be of interest to academics and educators who work on critical thinking and academic writing, especially those who work with Chinese students. Scholars interested in intercultural issues in higher education may also find it relevant.

A Handbook of Critical Approaches to Literature Wilfred L. Guerin, 1979

Now in its fourth edition, *A Handbook of Critical Approaches to Literature* has become a standard introduction to the close reading of literature. It offers students and other readers a variety of ways to interpret a piece of literature, ranging from traditional approaches through the formalist, the psychological, the mythic, and the archetypal, and into such contemporary approaches as feminist criticism and cultural studies. Applying these diverse approaches to the same five works, the book shows students how various methods offer different insights, enriching their response to and understanding of the

individual work This fourth edition features a new chapter on cultural studies and the inclusion and interpretation of Alice Walker s singularly rich short story Everyday Use
