Critical Entertainments:

Critical Entertainments Charles Rosen, 2001-11-30 This collection of essays by gifted musician and writer Rosen covers a broad range of musical forms historical periods and issues They court controversy and offer enlightenment on subjects as diverse as music dictionaries and the aesthetics of stage fright *Critical Music Historiography: Probing Canons, Ideologies and Institutions* Vesa Kurkela, Markus Mantere, 2016-03-09 During the past two decades there has emerged a growing need to reconsider the objects axioms and perspectives of writing music history A certain suspicion towards Francois Lyotard's grand narratives as a sign of what he diagnosed as our postmodern condition has become more or less an established and unquestioned point of departure among historians This suspicion at its most extreme has led to a radical conclusion of the end of history in the work of postmodern scholars such as Jean Baudrillard and Francis Fukuyama The contributors to *Critical Music Historiography* take a step back and argue that the radical view of the impossibility of history as well as the unavoidable ideology of any history are counter productive points of departure for historical scholarship It is argued that metanarratives in history are still possible and welcome even if their limitations are acknowledged Foucault Lyotard and others should be taken into account but systematized viewpoints and methods for a more critical and multi faceted re evaluation of the past through research are needed As to the metanarratives of music history they must avoid the pitfalls of evolutionism hagiography and teleology all hallmarks of traditional historiography In this volume the contributors put these methods and principles into practice The chapters tackle under researched and non conventional domains of music history as well as rethinking older historiographical concepts such as orientalism and nationalism and consequently introduce new concepts such as occidentalism and transnationalism The volume is a challenging collection of work that stakes out a unique territory for itself among the growing body of work on critical music history

Critical Perspectives on Mass Market Entertainment, 2025-06-12 This book offers critical insights into contemporary mass market entertainment across various geographical and cultural contexts blending theoretical reflections with empirical case studies It examines cultural phenomena and objects from both Western and non Western perspectives analyzing representations production and consumption practices By highlighting the interplay of identities power dynamics and digital transformations this work deepens your understanding of entertainment as both a cultural phenomenon and an ideological apparatus It emphasizes the need for ongoing critical engagement with mass market entertainment in our rapidly changing world

A World of Popular Entertainments Gillian Arrighi, Victor Emeljanow, 2012 Despite the vibrant complex and ubiquitous nature of popular entertainments the field has suffered from a lack of sustained academic attention Nevertheless popular entertainments have a global reach and a transnational significance at odds with the fact that the meaning and definition of both popular and entertainment remain widely contested Since the late nineteenth century class based prejudices in Western culture have championed the superiority of art and literature over the dubious and fleeting pleasures of entertainment

Similarly the term popular has carried pejorative connotations indicating something common and outside the conventional and highbrow productions of the purpose built theatre house or concert hall Publisher An Introduction to the Study of the New Testament, Critical, Exegetical, and Theological Samuel Davidson, 1882 **Billboard**, 2000-04-15 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends **Variations on the Canon** Charles Rosen, 2008 Masterful essays honoring the great pianist and critic Charles Rosen on masterpieces from Bach and Beethoven to Chopin Verdi and Stockhausen Charles Rosen the pianist and man of letters is perhaps the single most influential writer on music of the past half century While Rosen's vast range as a writer and performer is encyclopedic it has focused particularly on the living canonical repertory extending from Bach to Boulez Inspired in its liveliness and variety of critical approaches by Charles Rosen's challenging work *Variations on the Canon* offers original essays by some of the world's most eminent musical scholars Contributors address such issues as style and compositional technique genre influence and modeling and reception history develop insights afforded by close examination of compositional sketches and consider what language and metaphors might most meaningfully convey insights into music However diverse the modes of inquiry each essay sheds new light on the works of those composers posterity has deemed central to the modern Western musical tradition Contributors Pierre Boulez Scott Burnham Elliott Carter Robert Curry Walter Frisch David Gable Philip Gossett Jeffrey Kallberg Joseph Kerman Richard Kramer William Kinderman Lewis Lockwood Sir Charles Mackerras Robert L Marshall Robert P Morgan Charles Rosen Julian Rushton David Schulenberg L szl Somfai Leo Treitler James Webster and Robert Winter Robert Curry is principal of the Conservatorium High School and honorary senior lecturer in the Centre for Medieval Studies University of Sydney David Gable is Assistant Professor of Music at Clark Atlanta University Robert L Marshall is Louis Frances and Jeffrey Sachar Professor Emeritus of Music at Brandeis University **The Chinese classics with a translation, critical and exegetical notes, prolegomena, and copious indexes** James Legge, 1871 Sounds Like Helicopters Matthew Lau, 2019-10-01 Classical music masterworks have long played a key supporting role in the movies silent films were often accompanied by a pianist or even a full orchestra playing classical or theatrical repertory music yet the complexity of this role has thus far been underappreciated *Sounds Like Helicopters* corrects this oversight through close interpretations of classical music works in key modernist films by Francis Ford Coppola Werner Herzog Luis Buñuel Stanley Kubrick Jean Luc Godard Michael Haneke and Terrence Malick Beginning with the famous example of Wagner's *Ride of the Valkyries* in *Apocalypse Now* Matthew Lau demonstrates that there is a significant continuity between classical music and modernist cinema that belies their seemingly ironic juxtaposition Though often regarded as a stuffy conservative art form classical music has a venerable avant garde tradition and key films by important directors show that modernist cinema restores the original subversive energy of these

classical masterworks These films Lau argues remind us of what this music sounded like when it was still new and difficult they remind us that great music remains new music The pattern of reliance on classical music by modernist directors suggests it is not enough to watch modernist cinema one must listen to its music to sense its prehistory its history and its obscure prophetic future *The works of Ben Jonson with critical and explanatory notes and a...* Ben Jonson,1904 *The*
